6.1. Public Hearing on the Local Control Accountability Plan

Speaker: Oscar Hernandez, Assistant Superintendent of Educational Services

Rationale: The District Local Control Accountability Plan (LCAP) Committee and Parent and English Learner Advisory Councils have assisted in the shaping of District goals, metrics to measure growth, action steps, services, and expenditures. The Rio School District has engaged community members, pupils, local bargaining units, and other stakeholders through a variety of venues during this process.

As part of the development process, the District also engaged other district-wide councils and leadership committees through meetings, surveys, and community forums. In addition, site administrators presented information regarding the LCAP and Local Control Funding Formula to their Parent-Teacher Associations, School Site and English Learner Advisory Councils, and they encouraged stakeholders to participate in the development of the District’s LCAP by providing feedback pertaining to the goals, actions, and services proposed in the plan.

Prior to adopting the LCAP, the Governing Board shall hold at least one public hearing to solicit recommendations and comments from the public regarding the specific actions and expenditures.

The public hearing at the Board meeting on June 8, 2016, satisfies the statutory requirement.

Financial Impact: Not applicable

Quick Summary / Abstract:

Board meetings are meetings of the Governing Board held in public, not public forums, and will be held in a civil, orderly and respectful manner. 9.7. Out of State Travel Approval for School Garden Certificate Training in Oregon

Speaker: Oscar Hernandez

Rationale: Rio Plaza recently applied for two school garden grants. We were awarded our first grant through the Whole Foods Whole Kids Foundation in the amount of $2000. Part of the grant requirement is staff training with the grant specifically identifying the Growing Gardens’ School Garden Certificate Training Program in Portland, Oregon. What makes this training program different from others is that it provides four and one-half days training on topics which include

- Community Engagement
- Master Plan Development
- Teaching Kids in the Garden
- Food Safety
- Planning and Growing with the School Calendar
- Fundraising
- Connecting to the Core Curriculum
- Garden Infrastructure

and various school garden tours throughout the Portland area to demonstrate these topics. Another requirement of the grant is that we set aside school funds to match the grant, which we have under LCFF in the amount of $2000 for the 2016-2017 school year.

Financial Impact: The cost for this training for both garden lead teachers is as follows which will be paid out of the first grant:

Amount Requested: $2,000.00

Additional Project Information

PLEASE NOTE: This School Garden Grant application is for schools only. If you are applying for a garden at a non-profit organization, please submit an application to our Extended Learning Garden Grant program.

The "Narrative Questions" section is broken into six different categories. In order to move onto the next category, you must complete and save all required fields. You can, however, move in between the "Narrative Questions" section and other sections.

Tell us about the School Garden!
1. Tell us about your garden's goal and what this grant would make possible for your school and your community. [1000 characters]

We want to teach our students about healthy eating. They will be more willing to try things they have grown themselves. Through this experience, our students will learn focus and patience, cooperation, teamwork and social skills. In the garden different learning styles can be addressed. The students will learn by doing, and those who struggle with academics can find a way to blossom in the garden. Also we want to improve our parent involvement. Many of our parents have a cultural belief that they need to leave school matters to the teachers. We want to show them that we value and want their input with having them as leaders in our garden. Many of them are farm workers and a vast amount of knowledge that would be valuable to us.

2. Is this a new or existing garden?

New

3. We seek to support school gardens located on a school's campus because we feel this has best success for full integration. Is your school garden located on school campus?

Yes

If no, where is it located?

4. Select the type of garden.

Raised Bed - On Ground

5. If Other, please explain.

6. Our School Garden Grant supports school gardens that grow edible plants only. What type of edible plants do you plan to or already grow?

Vegetables|Fruit|Grains (e.g. wheat, millet, amaranth)|Herbs|Edible Flowers

7. Have you or do you plan to test the garden for contaminants? Please select N/A if you are utilizing impermeable raised beds and soil testing is not necessary.

N/A

8. Do you or will you have access to water for your garden?

Yes

9. Do you currently have tools

Yes

10. Do you currently have tools
and a safe place to store them?

11. What will you do with the food you grow? Please check all that apply. Children will take home|Education and taste tests|Cooking|Donation or sale to the schools cafeteria|Donation to the community, i.e. food bank

Who supports the School Garden?

The Garden Coordinator is the individual who is spearheading the Garden Project, i.e. parent, teacher, student, community member, etc.).

12. Garden Coordinator’s First Name: Sandra

13. Garden Coordinator’s Last Name: VonCannon-Legaspi

14. Garden Coordinator Email: svoncannon@rioschools.org

15. Will there be a person or persons working with the school garden who has gardening experience (e.g. a master gardener or experienced volunteer)? Yes

16. Tell us about the gardening knowledge of the Garden Coordinator or of other individual’s involved. If limited, what is your action plan to learn more? [500 characters] We are currently involved with a program called Farm to School. Through this program we have access to local farmers and volunteers. We will also be sending our Garden Coordinator to a School Garden Coordinator Certificate program. Through this training we will gain knowledge in community organizing, garden infrastructure, teaching garden-based activities, adding garden grown produce to school meals and much more.

17. Has anyone involved in the garden ever attended a School Garden training? Examples of this include the Edible Schoolyard Academy, Growing Gardens garden coordinator certificate program, or Shelburne Farms educator workshops, local Agricultural Extension programs, or Master Gardener classes. No

<tr>
<td>20. Would anyone at your school be interested in attending a school garden training?</td>
<td>Yes</td>
</tr>
<tr>
<td>21. Approximately how many adult volunteers (not including students) have you secured for the upkeep and operation of the school garden?</td>
<td>10</td>
</tr>
<tr>
<td>22. How will the above number of volunteers be managed to maintain the garden over time? This should include how maintenance will be kept up through the summer months and vacation days. [750 characters]</td>
<td>We have five first grade classes who will work on a rotation schedule in the garden. Each class will have a raised bed that they will be responsible for on a daily basis. Classes will be responsible for planting, watering weeding and harvesting. Our garden will be located right outside our classrooms and we will be able to inspect it on a daily basis. We have access all year long including breaks to our school garden. Teachers will take turns during breaks meeting parent volunteers at the school to work on the garden. As we are in Southern California our garden will continue to provide fruit and vegetables for us all year long.</td>

<tr>
<td>23. What will you do to engage your community in the garden, such as parents and families, other teachers, neighbors, local businesses? This could include garden tastings or cooking events, potlucks in the garden, farmer's markets, or any other fundraising or awareness events and communications. [1000 characters]</td>
<td>We will host a &quot;Night in the Garden&quot; event. Parents, community members and district personnel will be invited to a dinner featuring produce from our garden. The main attraction will be a salad bar stocked with our &quot;home&quot; grown fruits and vegetables. We will sell tickets to the event and use funds gained to help us continue our program. During this event we will also sale student artwork that was inspired by our garden. Parents and community will be entertained by students performing cultural dances and songs. Students will also give presentations on topics they have learning about from our gardening experience. An example of this would be a Google Slide presentation on the History of the Tomato followed by a tasting of different types of tomatoes by the parents and community members.</td>

25. How many students will be involved with the garden? 125

26. How many classrooms will be involved with the garden? 5

27. How often do the students visit the school garden? Please include the frequency, such as twice per week or five times a month. [250 characters]

Our garden will be located right outside our classrooms. We will be passing through our garden several times a day when we enter and exit our classrooms. We will assign each class a week to work in the garden on a rotating schedule.

28. When the students visit the garden, how long do they stay? [250 characters]

With 24 students per class and two adults, I think each class will spend about 30 minutes a week in the garden. I'm sure many students will visit the garden during their free time to rest and relax, and observe nature.

29. Tell us about the primary ways children will engage with this garden. This could include, but is not limited to, garden upkeep, nutrition-associated education, field trips, after school activities, tasting/cooking demonstrations, or garden clubs: [750 characters]

Students will be involved in the choosing of crops, planting, watering, caring for, and the harvesting of the crops. We are involved with a program called Farm to School. Through this program students are taught about where certain crops are grown, their history and uses. They will also be tasting different types and will take part in cooking lessons. We then will have the children vote on their favorite types (take tomatoes as an example) and grow them in our garden to supplement our school salad bar. We will also take our students on field trips to see how crops are grown on farms.

30. How will you integrate the garden into your school’s classroom curriculum? Please select all classes that apply, and explain briefly how you plan to integrate each subject into the garden in the boxes below.

Art|English|Health and Nutrition|History|Math|Physical Education|Science|Social Studies

31. If you selected Art, detail how the garden will be integrated into this subject. [250 characters]

Our garden will be a source of inspiration for our art. We will draw, paint and sculpt with it in mind. They will document plant growth with drawings and photos. We will make our own paints using elements from the garden.

32. If you selected English, detail how the garden will be integrated into this subject. [250 characters]

We will keep a "Garden Journal" to record our thoughts and document or garden’s progress. Students will also make slide presentations on items grown in our garden. They will be sharing
33. If you selected Health and Nutrition, detail how the garden will be integrated into this subject. [250 characters] 

Our children will be learning to make healthy choices. Through their experience in the garden they will be more willing to try new things. This will also be done through our Farm to School program that will be bringing something new each month.

34. If you selected History, detail how the garden will be integrated into this subject. [250 characters]

Along with Farm to School, we have another project called History Harvest this program focuses on the farm workers and their migration to the U.S. Students will be tracing their own ancestry and how it is tied to agriculture.

35. If you selected Math, detail how the garden will be integrated into this subject. [250 characters]

We will be keeping data on our garden. Such as measuring the growth of our plants and the amount of produce gained. Students will be doing measuring, sorting, counting, adding and subtracting activities.

36. If you selected Physical Education, detail how the garden will be integrated into this subject. [250 characters]

Students will be bending, stretching, standing, walking, digging, carrying and lifting. They will see that maintaining a garden is physical work. They will gain an appreciation for its labor demands and the work that their parents do.

37. If you selected Science, detail how the garden will be integrated into this subject. [250 characters]

We will learn about what a plant needs to grow. We will discuss the different parts of plants and their function. Students will learn how humans use the different parts of plants to meet our needs.

38. If you selected Social Studies, detail how the garden will be integrated into this subject. [250 characters]

Though our Farm to School program our students are learning where produce was first "discovered" and how through trade and other ways it was introduced to the rest of the world and became a part of our culture.

39. If you selected Other, detail how the garden will be integrated into this subject. [250 characters]

40. How do you or will you measure the success of your school garden program? This could include, but is not limited to, the number of children involved, produce harvested, school staff or community involvement, etc. [750 characters]

We will know our garden is a success if we are able to supply our "Night in the Garden" event. We also hope to provide enough produce to supplement our school cafeteria and eventually donate to our district food share events. Another measure of success will be having our parents involved in our garden. Many of our parents are farm workers and have a practical knowledge of what it takes to make a garden successful. It is especially important to get them involved because of cultural beliefs, they do not participate in school functions. We want to show them that we value their knowledge and seek their input on many aspects of school life. This would be a way for them to start being more involved with school activities.
41. Tell us about any needs or challenges faced by your students, school, and/or your community that make your garden program especially important. This may include, but is not limited to financial needs, safety issues, health issues, community support, or regulation hurdles. [750 characters]

We are a Title 1, K-5 school. All of our students receive free breakfast and lunch everyday. We also continue to offer free meals during the summer months. Many of our parents are migrant farm workers. A majority of our students are considered homeless because they live in houses that are rented out to multiple families at the same time. The rooms are rented out to individual families and often the garage is rented out to multiple families. The ethnic make up of our school is 98% hispanic. About a third of our population is Mixteco. They are an indigenous culture from Oaxaca, Mexico. They come to this country to work in the farm fields and do not speak English or Spanish. These families are working to survive on a daily basis.

School Garden Budget

42. What is the total annual budget for the garden (whether existing or planned)? Please include all costs. We would like to know the whole picture, so this may be outside of what the Whole Kids Foundation funds would support. A general list of expenses and costs will suffice (labor, tools, curriculum materials, planting materials, etc.) Please note: Whole Kids Foundation grant funds may not be used for the following: real estate, travel costs, field trips, scholarship. [1000 characters]

Expenditures:
- Planter Box Materials @ $300
- Garden Tools @ $100-$150
- Planting Materials @ $100-$150
- Teacher Professional Development @ $1,000-$1,500
- Next Generation Science Standards Materials @ $500

43. Then tell us how you would spend the Whole Kids Foundation grant funds of $2,000, specifically. [1000 characters]

We would first need to purchase materials for building the planter boxes. This would include the lumber, wood screws and plastic liner. This should build us several boxes. We will need to buy a few garden tools to get us started shovels, cutters, stakes, wire frames for tomatoes. Also we need seeds or seedling plants to get us started. After that I would like to harvest the seeds from what we grow and use those to plant the next crop. This way the students will really see the cycle of life. We will also be seeking teacher training. One source of this Life Labs on the UC Santa Cruz campus. They offer School Garden workshops and School Garden consultations.

44. The Whole Kids Foundation Garden Grant of $2,000 is

We will be having a "Night in the Garden Fundraiser". At this event we will serve produce from our garden. The community will be
sufficient funds to start a garden, but not enough to sustain it over time. How will you sustain your garden financially over time? For example, how will you generate funds? What other grants have you applied for or will you apply for? [1,000 characters]

invited to not only purchase tickets, but we will also have an “silent auction” of baskets of our produce and related student artwork inspired by working in the garden. There will also be other sponsorship opportunities available. We hope to continue this as an annual event to continue to fund our garden for years to come.

Community Partner Information

Each Garden Project must have the participation and support of a specific partner organization from the community (e.g. a nonprofit, a farm, a local business, a Whole Foods store, or a garden club) that brings added support and sustainability to the initiative. This support could be financial, or it could be in-kind donations, volunteers, or garden consultation, to name a few. If applicable, the fiscal sponsor may be the community partner for this grant.

45. What is the name of your Community Partner Organization? Farm to School

48. Community Partner Contact Phone Number (805)358-1889

49. Community Partner Contact Email joanamunro@icloud.com

50. Community Partner Website: www.farmtoschool.org

51. Tell us about the Community Partner and what they add to your project. [500 characters] Through Farm to School our students are now gaining exposure to new fruits and vegetables. They are coming to our school on a monthly basis. They are introducing our students to a new produce items each month, teaching them about its history, where it is grown and how it is used. They then have a taste test each time and
students describe it using their senses. If we are able to start our
garden, Farm to School has community contacts that will come to
school and assist us in the garden.

Rio Plaza recently applied for two school garden grants. We were awarded our first grant through the Whole Foods Whole Kids Foundation in the amount of $2,000. Part of the grant requirement is staff training with the grant specifically identifying the Growing Gardens’ School Garden Certificate Training Program in Portland, Oregon. What makes this training program different from others is that it provides four and one-half days training on topics which include

- Community Engagement
- Master Plan Development
- Teaching Kids in the Garden
- Food Safety
- Planning and Growing with the School Calendar
- Fundraising
- Connecting to the Core Curriculum
- Garden Infrastructure

and various school garden tours throughout the Portland area to demonstrate these topics. Another requirement of the grant is that we set aside school funds to match the grant, which we have under LCFF in the amount of $2,000 for the 2016-2017 school year.

We looked for local training and were able to find a training day here or there, but nothing as substantial and in-depth as this training. Our goal is to build and sustain a curriculum integrated garden so we want to assure that we have adequate training for our garden leads, Sandra Legaspi for primary and Nancy Ramos for secondary.

This began with a partnership with Lacey Piper, Director of Food Services and the Harvest of the Month (HOTM) program. With Harvest of the Month, we exposed students to foods grown around the community and farmers who grow them. We continue to build the HOTM by adding cooking carts, field trips to farms and gardens to our campus next year. I mention gardens, because Captain Planet, provided through Food Services, will be installing a garden on our campus while the matching Whole Foods school funds will pay for the second.

The gardens will be folded into our HOTM program and the engage 2 learn project-based learning, as well as the Next Generation Science Standards (NGSS), which we will incorporate into instruction next year. One goal of the gardens is to provide table safe food for our cafeteria and/or the HOTM food carts. The garden will also be a bridge for our real-world connection to our farming community for our HOTM and project-based learning through the engage 2 learn model. Additionally, the gardens will provide the hands-on instructional component for plant biology and ecosystems in multiple Disciplinary Core Ideas across all grade level NGSS’s, K to 5.

These gardens are learning labs that will be significantly integrated into several learning programs and provide connections to our community. Based upon these facts, it is important for us to provide substantial training for our garden leads to assure a sustainable, in-depth garden program.

The cost for this training for both garden lead teachers is as follows:

Agenda Item: 9.8. Approval of Engage 2 Learn Agreement

Speaker: Oscar Hernandez

Rationale: Phase one was the visit to Walker Elementary school with six teachers with one representing each grade level, and the school principal. Our visit had four goals. First, to experience the school implementing the model so we could observe how it functions at each grade level to develop the “end in mind” mindset. The second goal was to develop relationships with Walker teachers and administration to create a partnership as we move forward into our launch of E2L. Goal three was a face-to-face meeting with engage2learn for Q & A and to develop a roadmap for success at Plaza. Our fourth and final goal is to develop long-term student collaboration with students at Walker. We accomplished three of the four goals, with the fourth goal to come in the future.

As previously proposed, Plaza is rolling out PBL with engage2learn over the next three years. Year one (phase two) involves our Walker team of teachers (representing a teacher from each grade level), and a second teacher from each grade level as the secondary team member receiving E2L professional development. Our Walker team provides internal support for our implementation of E2L. Through five onsite professional development days and nine in-class coaching days for 12 teachers and one administrator, we will launch E2L at Plaza during the 2016-2017 school year. Year two (phase three), the 2017-2018 school year will mirror year one. Year three (phase four) is our coaching year as needed to assure fidelity and longevity. For the first two years we will develop a cohort of E2L students from K-5, as we will have representation of two teachers per grade level. This will allow us to compare the E2L student data against the traditional classrooms to gauge student growth using the model. The model focuses on PBL instruction in science and social studies while integrating English language arts, mathematics, student and teacher technology, the 5Cs, and real-world issues in a student-centered environment.

Financial Impact: The cost of this training is outlined in the proposal under base fees at $27,250 and will be charged to the following accounts:

Campus further agrees that Engage shall not be liable to Campus for any damages, including any lost time, expenses, or other incidental or consequential damages arising out of its use or inability to use the e2L Framework training or the breach of any express or implied warranty, even if Engage has been advised of the possibility of those damages.

Executive Overview

Introduction
BoardDocs® Pro is a state-of-the-art, cloud-based Board Management Service from Emerald Data Solutions™. Developed specifically for public governing bodies, BoardDocs provides a means of immediately publishing and revising agenda items, supporting documents, and policies and procedures via the Internet. Staff Members can quickly and easily create, approve and track agenda items and other correspondence. BoardDocs services offer governing bodies a simple way to eliminate paper-based and less advanced electronic processes while maintaining a searchable, legal repository for all documents.

BoardDocs improves governance by making documents readily available to governing bodies, designated staff and the public in a professional, easy-to-access format. Staff maintains total control over who sees what information – and when. Governance stakeholders have immediate and ubiquitous access to their data via most Internet-connected devices. No third-party apps are required because BoardDocs is platform-independent and looks, feels and functions the same across both mobile and stationary devices.

BoardDocs goes far beyond email, PDF quick-fixes and general-purpose cloud services like Google Drive. It is a turn-key, state-of-the-art solution that includes all supervision, labor, materials, hosting, hardware, licensing, training, technical support, upgrades and documentation necessary to implement and maintain an effective electronic board document management system. With BoardDocs, there's no need to incur the cost of purchasing and supporting a thick client infrastructure; the organization need only provide Internet-connected devices to access the service.

Benefits Summary
In addition to dramatic improvements in governance processes and board effectiveness, our subscribers consistently report substantial annual cost savings, time-of-staff savings of up to 75%, increased transparency with stakeholders and multiple environmental benefits.
Document Submission, Creation and Publishing

With BoardDocs, the people that create the packet are the ones who manage it. And, since BoardDocs services provide centralized data storage, stakeholders can always be confident that there is only one valid copy of agenda information to be viewed or managed. There is no confusion regarding whether or not the information being viewed is current, because everyone is looking at the same documents.

**Document Submission Options**

BoardDocs Pro is easily customized to meet your organization’s document workflow requirements. Data can be collected and entered into the system in three ways:

Smaller organizations may prefer to designate a single person or a small group of people to gather electronic versions of their documents and enter them into the system. Using this simple method, these “document publishers” receive agenda item information and supporting documents via email or network share and create the agenda items using BoardDocs Pro document publisher software. This method often gives the document publisher(s) the ultimate control over all facets of the agenda item creation process.
The second option provides an easy way for designated staff members to create and submit their own agenda items using the BoardDocs Pro advanced user interface. As the items are submitted, the document publisher acts as the gatekeeper by ordering, checking and finalizing the agenda items.

Mid-sized and larger organizations will often choose to use online submission of agenda items due to a geographically dispersed staff or to accommodate the large volume of information that needs to be included in packets. This option also benefits submitters of regular or reoccurring reports as it provides a way for submitters to easily create, duplicate and manage their reports in a private work area.
The third option is similar to option two, but adds the ability for document submitters to select from one of several customizable approval trees that the item must proceed through prior to reaching the document publisher. Any number of approval trees can be set up where serial lists of approvers can be maintained. Once an agenda item is submitted and an approval tree is designated, an email message is sent to the first approver in the tree and the document publisher is notified. The approver then has several options:

- They can review the item and approve it
- They can edit the item and approve it with changes
- They can reject the item and send it to the original submitter
- They can send it back to any previous approver

Once approved, the correct staff member is notified via email and the item can no longer be edited by previous staff members. The next approver will have the same options and the agenda item will continue to move through the approval tree until everyone has approved the item. The document publisher can monitor this process and review the approval queue for each user. At any point, the document publisher can force approval of an item, as well as re-start the approval process.

Each document is securely stamped with the workflow history of the creator and each approver so that members of the governing body will know who signed off on each item prior to it being placed in the packet.

**Final Publishing**

While any designated staff member can submit agenda items to draft meetings using a browser, only document publishers can activate meetings. Access is ultimately managed by the document publisher at the meeting, agenda item and sub-agenda item level. Additional workflow rules are used to release meeting information and documents based on role and by date.

The formatting of the submitted items is up to the submitter and the document publisher. Rich text formatting is available to all users, and when cutting and pasting from standard applications, formatting is preserved. By using attachments, any type of file format is supported to provide backup information. By allowing users to control the formatting and presentation of each agenda item, the organization can define exactly how the information will be presented to the board, staff and/or the public.
Meeting Management

Meeting Control Panel
BoardDocs Pro provides comprehensive tools for meeting management. The core of our meeting management is the Meeting Control Panel (MCP). The organization can designate any staff member or even a member of the governing body to be the meeting moderator. Because the MCP is a Web App, there is no software to install. Using the MCP, designated meeting moderators have the ability to move agenda items in and out of consent, re-order the agenda, record motions, record voting, enable online voting and take notes for inclusion in the minutes.

"Follow Me" Technology
With BoardDocs Pro "Follow Me" technology, it's easy to be sure that everyone is on the same page. As the meeting moderator moves through the meeting, the governing body members can follow along. They simply click on the blinking agenda item at any time and are immediately taken to the current agenda item.

Voting
BoardDocs Pro is easily customizable and can collect actions in two ways. Organizations can designate a moderator to record the action details during or after the meeting, or the built-in online voting system can be used. Through the Meeting Control Panel, the action information and any additional notes are stored in each agenda item and made available to the public and authenticated users at the appropriate times.

BoardDocs Pro supports multiple motions per agenda item, multiple votes per item, real time modification of motions, automatic vote tally and provides the ability to override the results to meet virtually any voting scenario.

BoardDocs Pro also supports consent agenda items. Using the consent feature, the board can vote on several agenda items at once and BoardDocs Pro populates the resulting vote in each agenda item. Items can be removed from or added to the consent agenda in real time, during the meeting, with a simple click by the meeting moderator.

ScoreBoard
No matter how action information is recorded, BoardDocs Pro can share the results with the public in real time. ScoreBoard is an automated screen that follows the progress of the meeting and keeps the public up-to-date with the actions of the board. It is typically displayed on large screens in the board room during the meeting.
Minutes

BoardDocs Pro uses the action information stored in each agenda item to generate draft minutes of the meetings. Once the minutes are generated, the document publisher can format and edit using the BoardDocs Pro integrated editor. When complete, the minutes are placed in the system as an agenda item and attached to a future meeting. Once approved by the board, they are automatically released to the public and associated with the correct meeting.

BoardDocs Pro Features and Benefits

Ease of Use

BoardDocs Pro is currently being used by tens of thousands of users nationwide. This industry-standard solution provides an advanced user interface where stakeholders can access information in an intuitive manner. All information associated with agenda items, policies and library items can be consolidated in a customizable and easy-to-use electronic packet. Using the packet, designated stakeholders get an instant snapshot of all policies under consideration, current meetings, upcoming events, important documents and can even track progress of selected board goals.

Emerald Data Solutions has conducted a tremendous amount of research and taken recommendations from thousands of board members to assure that every governing body can easily navigate the service. We provide on-site training, user-friendly documentation, video tutorials, electronic manuals and online help. Plus, if any BoardDocs user ever needs additional assistance, Emerald Data Solutions provides 24-hour, live, toll-free technical support at no additional charge.

Annotations

BoardDocs Pro provides support for governing body members to enter private notes on any native BoardDocs Pro document. The notes are stored separately from the organization’s data in a private notebook on BoardDocs’ servers. While most solutions store annotations together with the organization’s data, BoardDocs Pro’s private annotation solution is unique. By maintaining the information in a separate database, the organization is not required to provide the annotations in response to a FOIA request.
Meeting Video
Meeting video allows stakeholders to go well beyond documents and actually view what happened during each agenda item in a meeting. This feature simplifies the task of associating and managing meeting video by providing easy-to-use tools that automate the process involved with delivering video over the Web. Users can easily associate their video with each meeting and tag individual agenda items to any part of the video, all while displaying them through the organization’s existing BoardDocs interface.

Stakeholders can then use BoardDocs’ powerful search tools to search for any agenda item within a meeting. Once the item is found, the stakeholder is presented with the highest fidelity experience of what actually happened during the meeting, including the agenda item, background information and video - all from one simple interface.

Advanced Web Application Technology
BoardDocs’ advanced Web technology provides an extremely rich user experience by delivering custom interfaces across multiple platforms without the need to install custom software or special end-user configurations. Recognizing the power of the individual to design their own Web experience, BoardDocs technology moves document management away from the IT department and to the individuals that actually create and manage the packet.

In the end, this technology helps governing bodies operate more effectively by eliminating paper, replacing less advanced electronic solutions and streamlining board packet processes. Organizations save money, time and increase transparency for their stakeholders. With BoardDocs, organizations of all sizes can significantly improve the way they create and manage board packets, access information and conduct meetings.

Client Requirements
BoardDocs Pro readers and publishers can access the BoardDocs user interface via most contemporary Web browsers, from virtually anywhere, on just about any Internet-connected device. There are no thick client applications to install, update or maintain. The organization is only responsible for supplying any client hardware and network infrastructure necessary to connect to BoardDocs services via the Internet.

Dedicated Database
BoardDocs uses a dedicated database and code base for each client. By using separate databases, access control lists and code for each client, Emerald Data Solutions can assure that no other BoardDocs subscriber will have unauthorized access to any organization’s private data. This also prevents data corruption from spreading throughout the system.
Integrated Solution

BoardDocs is the only solution to provide online meetings, library, goal tracking, events, video and policy solutions in one product. Other solutions require separate products for policies and agenda items. BoardDocs provides for all governance document needs in one simple system. This allows our clients to use one service for the features that boards need the most to support and streamline their governance activities.

Hosting and Technology Partners

Our hosting environment is supported by technology partners who are regarded as the best-in-class providers of their services. Application services are provided by clusters of Oracle/Sun servers, behind four F5 enterprise load-balancers that are connected to redundant, high-speed network connections. These clusters are hosted at three SSAE 16/SOC1 audited (formally SAS 70) dedicated hosting centers located in Denver, Co Sterling, VA and Toronto, Canada. All feature emergency backup environmental systems for continuous, 7 x 24 operation. At each site, data is kept on dual, fully-redundant fiber arrays with redundant connections to all servers and independent copies of the data are kept and stored on dual Raid 5+1 configured arrays at each site, so hardware failure is extremely unlikely. Additionally, each week night, between 11:30 PM and 3:00 AM, production data is copied to a NAS-attached array. This backup is kept for 1 week, except for Friday's backup, which is stored for 3 additional weeks.

Storage

BoardDocs provides document archives and instant access to at least 20 years of information. If, after 20 years the amount of information does not exceed 20 GB, additional data will be stored until the limit is reached. Data exceeding the 20-year limit will be archived on optical media and provided to the organization.

Customization

BoardDocs service includes customization at no additional charge. Through customization, BoardDocs is ideal for both large and small organizations. While each organization has different agenda, formatting and workflow needs, our customization functionality assures that your processes will not be driven by the software. Rather, our technology will work to support your existing meeting format, agenda and workflow.

Search and MetaSearch

BoardDocs provides the ability to perform searches against the full text of any document in the system – including attachments. The document publisher determines what documents or parts of documents users can access. Through MetaSearch, BoardDocs also provides the capability to perform searches of public agenda items and policies from similar organizations using BoardDocs services. By using this exclusive feature, staff and governing bodies can research policies and procurement on a national basis, incorporate findings into their own efforts, develop best practices, and ultimately save a great deal of time and money.
Custom Interface
BoardDocs supports the branding of public and private Web apps with the subscriber's information. Organizational logo support is provided for the apps and all printed documents. At any time, the subscriber can further modify the public and private Web sites with custom verbiage and designated documents. The public areas of BoardDocs are designed to integrate with the organization's Web site, and link back to it.

BoardDocs features several ways for subscribers to access data in the BoardDocs Pro database outside of our standard interface, including RSS and XML access to all public data. Using XML and RSS, dynamic information can be integrated into existing Web sites or custom queries can be made from most popular third-party reporting tools. Custom interfaces to the BoardDocs Pro data can also be created.

Ownership of Data, Backups, Object and Source Code
While BoardDocs maintains the data on behalf of each subscriber, we believe that the organization should have an up-to-date, local copy of all data. Our customers retain all ownership of content posted to their database and have exclusive control of who can access the data and when. Designated staff control access while the system and centralized storage ensure that there is only one valid and current copy of the information.

Technical Support
BoardDocs provides live, 7 x 24, US-based, no-charge technical support for all document publishers and authenticated users for the life of the agreement. The technical support is available via toll-free phone number with a guaranteed response time of two hours and a 24-hour resolution.

User Reports
BoardDocs is able to provide reporting on when users log in and access documents. If this information is provided to the organization, it will then be available to anyone via FOIA and Sunshine regulations. Most public governing bodies do not want this information collected or released to anyone.

User Accounts
Authenticated users will need an individual user ID and password. Initially, passwords and user names will only be shared with designated document publishers. After the implementation, changes to user names and passwords can be managed by designated staff using BoardDocs' People Manager.

Maintenance and Updates
Emerald Data Solutions provides ongoing maintenance, including minor fixes and updates to the software for the term of the agreement. Updates and fixes are automatically applied daily, as necessary, without user intervention. Emerald Data Solutions is continually responding to the needs of our subscribers and partners by improving our service and adding new features. This process is continuous and has taken BoardDocs from a simple paperless meeting solution to a comprehensive, sixth-generation board management solution.

Emerald Data Solutions will inform the customer and provide version upgrades as they become available at no additional charge. All version upgrades will be scheduled in advance and performed only after approval by the organization. Since BoardDocs is 100% Web based, there is no need to manage client software or install updates on workstations.

Training and Implementation
We have found that video or Web training is not sufficient to ensure complete success. As a result, every implementation of BoardDocs is performed on-site.

Emerald Data Solutions will assign a dedicated Implementation Specialist and Technical Analyst to assist in the implementation of the solution. The Implementation Specialist will conduct three on-site training sessions based on our proven curriculum. Each attendee will receive documentation, customized for the subject matter of their training session. Additionally, the organization’s IT staff will receive a comprehensive IT Implementation Guide.

The training sessions will be scheduled on two consecutive days and will consist of the following:

Document Publishers – This session is to be attended by the designated document publisher(s). The instructor will lead a six- to eight-hour session where the attendee(s) will publish an entire meeting and learn how to load and manage the data and how the data is presented by BoardDocs Pro.

Senior Staff – This consultative session will explore the processes and workflow in preparing information to be managed using BoardDocs Pro. This two-hour session should be attended by the senior cabinet and their administrative assistants.

Governing Bodies – Each member will attend a one – two hour, instructor-led session where they will learn how to access the information from any Internet-enabled location and how to participate in a meeting using BoardDocs Pro.
BoardDocs Pro Formal Proposal

Other than a $1,000, one-time start-up fee to cover travel expenses, there is no charge for initial training and implementation. Emerald Data Solutions will provide subsequent visits for training, on-site support or attendance of meetings at the organization’s request. For these visits, Emerald Data Solutions will only submit travel expenses, including airfare, ground transportation and hotel, for reimbursement. The BoardDocs Web site also features documentation and video tutorials if any user would like a quick refresher on how to use the system. Emerald Data Solutions maintains support and training staff throughout the country, so help is never far away.

Still Need “Some” Paper?
If some of your organization’s stakeholders still want to use paper, BoardDocs Pro provides an easy way to print individual agenda items, a customized agenda or even the entire packet.

Organizations can easily customize any report by adding logos, headers, footers and formatted text to their printed documents.

BoardDocs Plus

Need a Solution for Multiple Governing Bodies?
BoardDocs Plus is a new service enhancement that enables organizations with multiple public governing bodies to provide a separate, distinct and comprehensive suite of BoardDocs services to each group via one subscription.

BoardDocs Pro can support unlimited types of meetings for different committees; however, by adding Plus, each governing body can have separate confidential meetings, separate document managers and separate administrative access. With BoardDocs Plus, BoardDocs services can provide agenda item-level security so only authenticated users in each group can access meetings, agenda items or even parts of an agenda item.

Consulting Contract
2016-2017

This agreement is being undertaken between Dr. Phoebe (Faviana) Hirsch-Dubin of Global Equity Communications, a California Corporation, and Dr. John Puglisi, Superintendent of the Rio School District. Global Equity Communications is affiliated with the LINC Center at the Gevirtz Graduate School of Education, University of California, Santa Barbara, where Dr. Hirsch-Dubin was a visiting scholar for two academic years.

The Rio School District is contracting with Dr. Phoebe Hirsch-Dubin as a Professional Expert in the fields of Mathematics, Ethnomathematics, and Educational Pedagogy. Per this contract, Dr. Hirsch-Dubin will provide the following services from July 1, 2016 through June 30, 2017: Staff Development with Principals and Teachers in Mathematics and Common Core Standards, coaching, and direct services to students in mathematics and other disciplines, as requested. Specifics of services rendered throughout the academic year will be discussed and decided upon by Dr. John Puglisi and Dr. Hirsch-Dubin.

There will be contact on a weekly basis via in-person and Skype meetings, as well as regular e-mail communication and reports in order for Dr. John Puglisi and Dr. Phoebe Hirsch-Dubin to coordinate, plan, and implement activities that will be provided to the Rio School District. The goal is to effectively create a Mathematics and Ethnomathematics Program, to support implementation of the Common Core Standards and Twenty First Century Learning objectives, to develop inquiry learning, particularly within the Inquiry Based Instructional Designers (IBID) teacher group, and to provide ongoing collaborative professional development as needed.

For Dr. Hirsch-Dubin’s services, Global Equity Communications will receive a fee of $65.00 per hour, not to exceed $52,000.00 for the contract period. Dr. Hirsch-Dubin will be on site in the Rio School District 2-3 days per week.
between 8 am and 4 pm and on additional days as required throughout the contract period from July 1, 2016 through June 30, 2017. Support services will also be provided off site by Skype and other communications modalities.

This agreement is in effect as of July 1, 2016 and will be reviewed prior to the end date of June 30, 2017 in regard to services rendered and for evaluative purposes.

Independent Consulting Contract
2016-2017

This agreement is being undertaken between Dr. Elizabeth (Beth) Yeager, independent education consultant, and Dr. John Puglisi, Superintendent, Rio School District. Dr. Yeager is also affiliated with the Institute for STEM Education at California State University, East Bay. This agreement, however, is being undertaken independently of this affiliation and does not constitute a contract with CSUEB.

Performance Period: The work described in this independent consulting contract will be performed between September 1, 2016 and June 30, 2017.

Cost to the District: The cost to the district for Dr. Yeager’s performance of the work described will not exceed $16,000.

Statement of Work: Dr. Yeager will work with Dr. Puglisi, other District administrators, teachers and principals at selected Rio schools, at various grade levels. She will serve as a thinking and consulting partner in conceptualizing and supporting the implementation by District and school site administrators, faculty, and staff of professional learning opportunities (‘professionals developing’). She will support teachers and others in examining their own work (drawing on an ethnographic perspective) in order to enhance instructional capacity. She will support professional learning in the areas of designing instruction (particularly inquiry-based instruction) within and across disciplines, and understanding and implementing Common Core State Standards (focusing particularly on disciplinary processes and practices, and, where appropriate, writing within and across disciplines), and planning for New Next Generation Science and Engineering Standards (NGSS), integrated within instructional design. Dr. Yeager will support teachers, principals, and/or District administrators in thinking about and building on and expanding student inquiry practices (across all students), investigative and reasoning competencies, while addressing content within and across disciplines (e.g., English Language Arts, History/Social Science, science, other), consistent with emphasis on practices within the Common Core and Next Generation Science and Engineering standards. A particular emphasis will be placed on supporting District-level administrators and teachers and/or principals in working with linguistically diverse students and/or students identified with special needs, and others not so identified, focusing on inclusive practices, within the context of the whole class, that afford all students rich learning opportunities. Dr. Yeager will support District initiatives, including, but not limited to Inquiry Based Instructional Designers (IBID), The Rio Indigenous
Project (TRIP), as well as STEAM-focused efforts within the District, that in turn are designed to support student access, growth, and learning in the Rio District. Dr. Yeager will also serve as an embedded ethnographer of the thinking partner process for the District (that includes her work as a consultant as well as that of other thinking partner education consultants). She will maintain an archive of records of work and will guide analyses of these records, in support of the professional learning initiatives of the District.

Support for administrators, faculty and students will occur through ongoing and regular communication/dialogue and work, including thinking partner conversations, planning, and/or design for implementation; coaching and mentoring activities (through email, phone, Skype or other video conference communication, on site visits for coaching/mentoring, face2face release time work sessions, when appropriate, or professional learning sessions).

Dr. Yeager will provide the equivalent of approximately 213 hours of work. How these 213 hours are actually distributed and used will be negotiated over time with Dr. Puglisi, and, as appropriate, District administrators, school site principals, and/or teachers.

Deliverables will be assessed, and hours invoiced, monthly, summarized in an end-of-contract final report. Actual hours/days per monthly period will vary but the total for the contract period will equal 213 hours (at an equivalent monthly rate of $75/hour), not to exceed a total value of $16,000. The monthly invoice will serve as a progress report of work and will include number of hours worked and work (activities) accomplished.

This agreement is effective as of September 1, 2016 and will end, per submission of all deliverables, June 30, 2017.

Speaker: Oscar Hernandez

Rationale: AVID Secondary (grades 6-8) is an essential component of the Rio del Valle Middle School instructional program. AVID’s proven instructional methodologies and content area best practices improve outcomes for all students by creating a college-bound culture that increases the number of students who enroll and succeed in higher education and their lives beyond.

The AVID elective is the core of AVID Secondary. The program targets students in the academic middle—B, C, and even D students—with the desire to go to college and the willingness to work hard. Typically, they will be the first in their families to attend college, and they come from groups traditionally underrepresented in higher education. These are students who are capable of completing rigorous curricula but who are falling short of their potential.

AVID students learn organizational and study skills, develop critical thinking, learn to ask probing questions, receive academic help from peers and college tutors, and participate in enrichment and motivational activities to make their college dreams a reality.

Financial Impact: Not to exceed $5000 out of Title I funds.

Recommended Motion: Staff recommends Board approval.

**Article II. Period of Agreement**

2.1 **Term:** The Term ("Term") of this Agreement shall be July 1, 2016 to June 30, 2017 unless earlier terminated as provided herein.

**Article III. Licenses and Rights**
Copyright License:

Subject to Client’s performance of all the provisions of this Agreement, AVID Center hereby grants to Client a non-transferable license, without the right to sublicense, to distribute, reproduce, and display the AVID Materials and AVID Methodologies solely to implement AVID Elementary and/or AVID Secondary, or AVID for Higher Education as ordered on Quote(s), during the period listed in the corresponding Exhibit, and for no other purpose.

[For example, if Quote(s) specifies both AVID Elementary and AVID Secondary membership at ABC School Site, but only specifies AVID Elementary membership at XYZ School Site, Client will not distribute, display, photocopy, reproduce, duplicate, or otherwise make available the AVID Secondary Materials and Methodologies to XYZ School Site.]

(c) Client and any AVID Member Sites will not distribute, display, photocopy, reproduce or otherwise duplicate, all or any part of the AVID Materials or AVID Methodologies to anyone other than the AVID Member Sites without AVID Center’s prior written consent.

(d) Should Client wish to make any of the AVID Materials or AVID Methodologies accessible to its AVID Member Sites through the Internet, it will do so on a password-protected website, and it will ensure that only appropriate staff and students of the AVID Member Sites are allowed access to the website.

(e) Should Client wish to make electronic versions of any of the AVID Materials or AVID Methodologies available for download by its AVID Member Sites, it will ensure that only appropriate staff and students of the AVID Member Sites are allowed access to those materials, and it will require that those staff and students agree not to distribute, reproduce, display, or transfer those materials to anyone other than appropriate staff and students of the AVID Member Sites before downloading those materials.

(f) Client and any AVID Member Sites shall not modify or otherwise alter the AVID Materials or AVID Methodologies in any way, or create or distribute any derivative works of the AVID Methodologies or the AVID Materials in any way. Client also agrees not to use or adopt the AVID Methodologies or AVID Materials with respect to any educational or other program except solely to implement AVID under the provisions of this Agreement.

(g) Client and any AVID Member Sites acknowledge that they do not have the right to sell, sublicense, transfer, or lease any of the AVID Materials or AVID Methodologies to any person or entity.
3.2 **Trademark License:** Subject to Client’s performance of all the provisions of this Agreement, AVID Center hereby grants to Client during the Term a non-exclusive, non-transferable, indivisible license, without the right to sublicense, to use the AVID trademarks (collectively “AVID Trademarks”), (a) only as they are incorporated in the AVID Materials, and (b) only on advertising flyers and written promotional materials created by Client or the AVID Member Sites listed in Quote(s) in order to promote and implement AVID at those AVID Member Sites. Client agrees that it will use its best efforts to use the AVID Trademarks in a professional manner in order to preserve and enhance AVID Center’s substantial goodwill associated with the AVID Trademarks. Client agrees that it or its AVID Member Sites will not use any of the AVID Trademarks as a corporate or business entity name, as a fictitious business name or as a trade name, and will not use any name in such capacity that is confusingly similar to the AVID Trademarks. Client further acknowledges and agrees that it and its AVID Member Sites cannot modify or otherwise alter any of the AVID Trademarks or use any other designs or logos in conjunction with its use of the AVID Trademarks. Client cannot use the AVID Trademarks for any educational or other program other than to implement AVID at the Member Sites listed in Quote(s) consistent with the above license. Client and its AVID Member Sites will always use the proprietary symbol ® immediately adjacent to the respective AVID Trademarks as noted above with respect to their use of the AVID Trademarks. If Client or its Member Sites desire to use or place the AVID Trademarks on any products, things, or other merchandising items in order to promote AVID, it must first seek and obtain permission from AVID Center by completing AVID Center’s Request to Use AVID Center Trademark Form and complying with any of AVID Center’s conditions for approval. Any such additional uses of the AVID Trademarks approved by AVID Center shall also be subject to the terms of this license and the other provisions of this Article III.

3.3 **Rights Reserved:** Notwithstanding anything to the contrary in this Agreement, all rights not specifically granted in this Agreement to Client shall be reserved and remain always with AVID Center.

3.4 **Proprietary Rights:** The parties agree that AVID Center shall solely own and have exclusive worldwide right, title and interest in and to the AVID Trademarks, AVID Materials and AVID Methodologies, to all modifications, enhancements and derivative works thereof, and to all United States and worldwide trademarks, service marks, trade names, trade dress, logos, copyrights, rights of authorship, moral rights, patents, know-how, trade secrets and all other intellectual and industrial property rights related thereto (“Intellectual Property Rights”). Client shall not challenge, contest or otherwise impair AVID Center’s ownership of the AVID Trademarks, AVID Materials or AVID Methodologies, or any of AVID Center’s applications or registrations thereof, or the validity or enforceability of AVID Center’s Intellectual Property Rights related thereto. Client also agrees not to submit any applications or otherwise attempt to register for itself or others any of the AVID Trademarks, AVID Materials or AVID Methodologies.

3.5 **Enforcement:** The parties agree that except to the limited extent expressly set forth in Paragraphs 3.1 and 3.2 above, AVID Center will be irreparably harmed and money damages would be inadequate compensation to AVID Center in the event Client breaches any material provision of Article III. Accordingly, all of the provisions of this Agreement shall be specifically enforceable by injunctive and other relief against Client without the requirement to post a bond, in addition to any other remedies available to AVID Center, for Client’s breach of any provision of this Agreement.
Proprietary Notices: Client agrees not to remove, alter or otherwise render illegible any trademark, copyright or other proprietary right notices or other identifying marks from the AVID Materials or any permitted copies thereof.

Infringement: Client agrees to notify AVID Center of any conduct or actions on the part of third parties of which it becomes aware that might be deemed an infringement or other violation of AVID Center's rights in the AVID Trademarks, AVID Materials or AVID Methodologies. In such an event, AVID Center shall have the sole right to bring an action for infringement or other appropriate action with respect thereto. AVID Center shall exclusively control the prosecution and settlement of any such action. Client agrees to fully cooperate with AVID Center in any such action and provide AVID Center with all information and assistance reasonably requested by AVID Center.

Compliance With Laws: Client agrees that the AVID Trademarks, AVID Materials and AVID Methodologies will be used in accordance with all applicable laws and regulations and in compliance with any regulatory or governmental agency that has jurisdiction over Client and its educational programs.

Sole Source: AVID Center affirms that it is the sole source of the AVID College Readiness System to which competition may be precluded due to the existence of a patent, copyright, secret process, or monopoly. AVID Center's sole source development includes intellectual property - copyrights and trademarks - in the AVID Materials, licensing for reproduction of student activity sheets associated with the curriculum, technical assistance, training to teachers and administrators, and coordination of the AVID College Readiness System through consultation, data collection, and Certification processes.

Article IV. Compensation

Quotes—Invoicing and Payment: During the Term of this Agreement, Client may request Quote(s) for AVID services and/or products. Client indicates its acceptance of a Quote by signing the respective Quote or issuing a Purchase Order in the amount of the Quote. Should Client issue Purchase Order(s) for such Quote(s), the terms and conditions of this Agreement shall control for all Purchase Orders; no terms and conditions on Purchase Orders will apply to any part of this Agreement. AVID Center will invoice Client according to the terms listed in the accepted Quote(s).

Article V. Status of Parties

Independent Contractors: AVID Center and Client are independent contractors and their relationship is that of a licensor and licensee. This Agreement is not intended to create a relationship of employment, agency, partnership, joint venture, or similar arrangement between the parties. Neither party shall have any power or authority to bind or commit the other party in any respect, contractually or otherwise. In no event shall either party, or any of its respective officers, agents, or employees, be considered the officers, agents, or employees of the other party.

The person signing on behalf of Client warrants that he or she has the authority to enter into this Agreement on behalf of Client and to bind Client to perform all of its obligations under this Agreement.

Article VII. Termination

7.1 Termination for Cause: Subject to the last sentence of this Paragraph 7.1, either party has the right to terminate this Agreement at any time if the other party is in material breach of any warranty, term, condition or covenant of this Agreement and (i) fails to cure that breach within thirty (30) days of receiving notice from the non-breaching party which specifies such material breach and demands cure thereof, or (ii) fails to provide the non-breaching party assurance that the breach will be cured within a longer period of time which is acceptable to the non-breaching party. In the case of a breach by Client that is not cured as described above, AVID Center shall have the right to terminate Client’s right to conduct any part of an AVID product or service at one or more specific AVID Member Site(s), by giving written notice to Client of the sites so terminated, without terminating this Agreement with respect to the other products or services at the particular AVID Member Site and/or other AVID Member Site(s) subject to this Agreement. Any termination under this Paragraph 7.1 will become effective automatically upon expiration of the cure period in the absence of a cure or mutually agreed-upon resolution. Notwithstanding the foregoing, any material breach by Client, which is further defined as a breach of any of the provisions of Article III, shall be deemed incurable and AVID Center shall have the right to immediately terminate this Agreement upon such material breach by Client.

7.2 Termination for Convenience: Notwithstanding Paragraph 7.1 above, either party may terminate this Agreement upon thirty (30) days prior written notice to the other party.

7.3 Cessation of Use: Upon termination or expiration of this Agreement: (a) the licenses in Article III shall automatically terminate and revert to AVID Center, (b) Client shall thereafter immediately discontinue AVID in all of its school sites and cease using the AVID Materials, AVID Methodologies, or AVID Trademarks in any way, and (c) Client shall pay any unpaid balances to AVID Center and remain liable for its obligations or other actions that accrued or occurred prior to the termination date.

7.4 Cumulative Remedies: All rights and remedies conferred herein shall be cumulative and in addition to all of the rights and remedies available to each party at law, equity or otherwise. In addition, Sections 3.3, 3.4, 3.5, 3.6, 4.1, and all of the provisions of Articles VII and VIII shall survive the termination or expiration of this Agreement.

This Agreement, including all addenda, constitutes the entire agreement between the parties regarding this subject matter hereof and supersedes all prior oral or written agreements or understandings regarding this subject matter. This Agreement can only be amended by a written document signed by both parties.

8.3 Limitation of Liability: NEITHER PARTY SHALL BE LIABLE FOR ANY INDIRECT, SPECIAL, INCIDENTAL, CONSEQUENTIAL OR EXEMPLARY DAMAGES, WHETHER FORESEEABLE OR NOT, THAT ARE IN ANY WAY RELATED TO THIS AGREEMENT, THE BREACH THEREOF, THE USE OR THE INABILITY TO USE THE AVID COLLEGE READINESS SYSTEM SERVICES AND PRODUCTS, THE RESULTS GENERATED FROM THE USE OF THE AVID COLLEGE READINESS SYSTEM SERVICES AND PRODUCTS, LOSS OF GOODWILL OR PROFITS AND/OR FROM ANY OTHER CAUSE WHATSOEVER.

Agenda Item: 10.14. Approval of National Spanish Spelling Bee Trip to San Antonio, Texas

Speaker: Oscar Hernandez, Assistant Superintendent of Educational Services

Rationale: On Saturday, April 23rd, Río Real, K-8 Dual Immersion school hosted the 1st Annual Ventura County Spanish Spelling Bee/Concurso de Deletreo, for students from two way language schools throughout Ventura County. Students competed much like in a traditional bee, however in the Spanish Bee students have to denote letters like y griega for “y”, b larga for “b” and b corta for “v”. This makes competition more of a challenge for students who have to know the rules of accent marks, diuesis and the silent h.

Student winner for the County level Bee were: 1st place in 3-5th grade-Brianna Velasco, 1st place in 6th-8th grade- Angelique Ibarra. Both are students at Río Real.

The 1st place winner of each grade level category is now eligible to compete in the National Spanish Spelling Bee on July 14-17 in San Antonio, Texas.

As part of the district’s support of students in our Dual Immersion Academy, we are requesting approval to send the winners of Real’s local Spanish Spelling Bee, to the Sixth Annual National Spelling Bee in San Antonio, Texas from July 15-16, 2016 along with two RSD chaperones. When we provide programs and competition in Spanish, we elevate the level of the language, increase student engagement and it also has an effect of promoting multiculturalism and the learning of languages in our society.

The Spanish Spelling Bee is supported through the New Mexico Association for Bilingual Education and the sponsorship of San Antonio Community College, Santillana, Dual Language Education of New Mexico, Univision, Bilingual Nation USA and The Spanish Resource Center (Albuquerque, New Mexico) and many other individuals from throughout the country, this event provides students the opportunity to showcase their Spanish language skills and to network with peers from throughout this great country.

Financial Impact: Not to exceed $7,300 out of LCFF funds.
