Board Policy

Philosophy, Goals, Objectives, and Comprehensive Plans

COVID-19 MITIGATION PLAN

Note: The following policy is intended for use during the coronavirus (COVID-19) pandemic and supersedes conflicting provisions in other district policies and administrative regulations, thereby eliminating the need to temporarily revise multiple policies. When the Governing Board determines, consistent with state and local orders from health officials, that the need for this policy no longer exists, the following policy should be removed from the district’s policy manual.

Due to the unexpected nature of the pandemic, the evolving circumstances, and rapidly changing information about the virus, the topics covered in this policy may not be directly addressed in current law. Therefore, the policy presents options and best practices for districts as they reopen school campuses following extended closures due to the COVID-19 pandemic. Districts are encouraged to consult with local health officials, staff, students, parents/guardians, neighboring school districts, and the county office of education in comprehensive planning for safe operations following campus reopening.

This policy involves a number of working conditions that are often addressed in collective bargaining agreements and, as such, may be subject to negotiations with employee organizations.

Resources that provide additional information, such as applicable state and local guidelines from health officials, school schedules, handwashing instructions, and specific personal protective equipment (PPE) requirements, may be attached as exhibits to augment this policy and should be periodically reviewed and updated as necessary.

The following policy establishes actions that will be taken by the district to provide a safe learning and working environment during the coronavirus (COVID-19) pandemic, and shall supersedes any conflicting language in existing district policies or administrative regulations until the Governing Board determines that the need for this policy no longer exists. The Board acknowledges that, due to the evolving nature of the pandemic, federal, state, and local orders impacting district operations are subject to change without notice. In the event that any federal, state, or local order may conflict with this policy, the order shall govern.

(cf. 2210 - Administrative Discretion Regarding Board Policy)
(cf. 5141.22 - Infectious Diseases)
(cf. 9310 - Board Policies)

The Board may also adopt resolutions or take other actions as needed to respond to such orders or provide further direction during the pandemic.

Note: Stay-at-home orders, restrictions on social gatherings, and PPE requirements and their impact on the opening and closing of school campuses will vary based on local conditions. CSBA strongly recommends that districts consult state and local health officials for guidance on decisions regarding the opening and closing of school campuses.

The Board recognizes that students and staff have the right to a safe campus that protects their physical and psychological health and well-being. School campuses shall only be open
when deemed safe for in-person instruction. The Board's decision to reopen school campuses for classes, before or after school programs, child care centers, and/or preschool programs shall be made in consultation with state and local health officials, the county office of education, and neighboring school districts. The district shall evaluate its capacity to implement safety precautions and to conduct full or partial school operations, and shall consider student, parent/guardian, and community input.

(cf. 0400 - Comprehensive Plans)
(cf. 0450 - Comprehensive Safety Plan)
(cf. 3516 - Emergencies and Disaster Preparedness Plan)

Prior to the return to on-campus teaching and learning, the Superintendent or designee shall provide to students, parents/guardians, and staff current information about COVID-19, including its symptoms, how it is transmitted, how to prevent transmission, the current recommendations from the state and local departments of public health, and any other information and/or resources to prepare for a safe return to on-campus teaching and learning. The Superintendent or designee shall also provide information on the processes and protocols the district will follow to minimize the health risks associated with COVID-19, including, but not limited to, physically separating individuals (social distancing), limits on large gatherings, the provision of personal protective equipment (PPE) such as masks and gloves, and the sanitization of facilities.

(cf. 4131 - Staff Development)
(cf. 4231 - Staff Development)
(cf. 4331 - Staff Development)
(cf. 6020 - Parent Involvement)

Student Support

The Board recognizes that the consequences of the COVID-19 pandemic, including fear for one's safety, the economic crisis, the loss of school-based relationships, and disruptions in student learning, impact all students but may have a disproportionate effect on the youngest students, students with disabilities, those students most vulnerable to basic needs insecurity or child abuse and neglect, and other at-risk students.

(cf. 0415- Equity)

As school campuses reopen, staff shall provide a caring and nurturing educational environment for students. The district may provide instruction on social-emotional well-being to all students, including information on how to deal with stress and anxiety in healthy ways and the importance of emotional well-being for academic success.

(cf. 6142.8 - Comprehensive Health Education)
COVID-19 MITIGATION PLAN (continued)

Staff shall pay careful attention to students' increased mental health concerns. Counseling, other support services, and/or referrals to other agencies shall be available to assist students in dealing with the social and emotional effects of COVID-19, such as stress, anxiety, depression, grief, social isolation, and post-traumatic stress disorder.

(cf. 5141.5 - Mental Health)
(cf. 5141.52 - Suicide Prevention)
(cf. 6164.2 - Guidance/Counseling Services)
(cf. 6164.5 - Student Success Teams)

As needed, the district may provide referrals of students and families to basic needs assistance or social services, and may assess students for eligibility for the free and reduced-price meal program or assistance under the McKinney-Vento Homeless Assistance Act.

(cf. 6173 - Education for Homeless Children)

The Superintendent or designee shall ensure that staff understand their obligations as mandated reporters to report suspected child abuse or neglect, regardless of whether the student is on campus or participating in distance learning.

(cf. 5141.4 - Child Abuse Prevention and Reporting)

The Superintendent or designee may provide information to staff and parents/guardians regarding how to provide mental health support to students. The Superintendent or designee may also provide counseling to staff who are experiencing emotional difficulties as a result of COVID-19.

Instruction/Schedules

Note: Until COVID-19 is no longer a concern, schools may offer instruction through one of three prevailing approaches: (1) return to full on-campus instruction with social distancing/PPE requirements and modified schedules, (2) continue exclusively with distance learning, or (3) use a hybrid approach that incorporates both on-campus instruction and distance learning. To accomplish any approach that uses on-campus instruction while maintaining social distancing may require the implementation of staggered schedules, such as having half the students on campus one week followed by the other half the following week, having grades 1-3 on campus on Monday and Wednesday and grades 4-6 on Tuesday and Thursday, or teaching elementary students on campus while secondary students use distance learning.

The following section reflects a hybrid approach, which may be the most practical for the majority of districts, and should be revised to reflect district practice.

The district shall offer a combination of on-campus instruction and distance learning to meet the needs of all students.

(cf. 6157 - Distance Learning)
(cf. 6158 - Independent Study)
COVID-19 MITIGATION PLAN (continued)

The Superintendent or designee shall work with school principals, teachers, other staff, students, and parents/guardians to recommend to the Board a schedule of on-campus instruction for each school. If all students cannot attend on-campus instruction for the entire school day due to space limitations as a result of social distancing requirements, the Superintendent or designee shall consider arrangements for rotating groups of students, such as on a daily or weekly basis, and/or shall provide on-campus instruction to students with the greatest need for in-person supervision.

(cf. 6111 - School Calendar)
(cf. 6112 - School Day)

Priority for on-campus instruction shall be given to the lowest performing students, students with disabilities, elementary level students, students at risk of child abuse and neglect, homeless students, foster youth, and English learners. To the extent practicable, the district shall also consider the needs of essential workers, as designated in the Governor’s executive orders, for child care during normal school hours.

(cf. 6173.1 - Education for Foster Youth)
(cf. 6174 - Education for English Learners)

On-campus instruction may be prioritized for subjects that are difficult to deliver through distance learning, such as laboratory science, art, or career technical education.

For distance learning, lessons may be delivered through live video sessions, or other technology-based distance learning platforms and/or the district may supplement on-campus instruction with home assignments. As much as possible, distance learning shall be provided through synchronous learning.

Appropriate training shall be provided to teachers and other instructional staff involved in distance learning, including training on how to use any technology or platform approved for distance learning by the school and opportunities for the sharing of best practices among instructional staff. Available training resources may also be provided to students and parents/guardians when necessary.

Evaluation of Academic Progress Following Campus Closure

Note: Pursuant to the Governor’s Executive Order N-30-20, administration of the California Assessment of Student Performance and Progress was waived in spring 2020 due to the COVID-19 pandemic. Districts will need to use other measures to evaluate students’ academic progress during that period of campus closure.

Upon return to on-campus instruction following an extended campus closure, the Superintendent or designee shall evaluate the impact of the campus closure on students' academic progress. Such evaluation may:
COVID-19 MITIGATION PLAN (continued)

1. Address student-specific needs arising from the transition back into on-campus instruction

2. Consider whether or not a student has experienced a regression of skills and/or lack of progress

3. If regression and/or a lack of progress is present, identify opportunities for recovery, including supplemental educational services and/or new or different support services

(cf. 6179 - Supplemental Instruction)

For students with disabilities, the evaluation of academic progress shall also be used to determine whether an additional or revised individualized education program (IEP) or Section 504 plan is needed for the student to be academically successful when returning to on-campus instruction. The Superintendent or designee may prioritize urgent student need in scheduling initial and triennial assessments and annual IEP meetings. The Superintendent or designee shall ensure district compliance with all procedural timelines for IEPs and Section 504 plans as required, unless amended by executive order.

(cf. 6159 - Individualized Education Program)
(cf. 6159.1 - Procedural Safeguards and Complaints for Special Education)
(cf. 6164.6 - Identification and Education Under Section 504)

Grading

Note: The district may select or revise any of the items below to reflect district practice. The California Department of Education's (CDE) FAQs on Grading and Graduation Requirements, available on its website, includes an appendix on Distance Learning Grading Guidance for Teachers which contains a non-exhaustive list of options for assigning final grades for spring 2020 for courses interrupted by COVID-19 and the resulting school closures. Those options are only applicable to final semester grades and may not necessarily apply to shorter periods of campus closure. Grading policies for the 2020-21 school year may be dependent on the date that campuses reopen and/or whether campuses need to be reclosed for an extended period at any time during the year.

Also see CSBA's Sample School Board Resolution on Grading During Emergency School Closures.

For each grading period, student progress shall be reported in accordance with BP/AR 5121 - Grades/Evaluation of Student Achievement. However, in the event that school campuses are closed for an extended period of time during any grading period, the Board may, upon recommendation by the Superintendent or designee, adopt one or more alternative grading policies which may vary by grade level or type of course. Options for such grading include, but are not limited to:

1. Assignment of final grades based on the student's grades when the campus shutdown
COVID-19 MITIGATION PLAN (continued)

occurred, with opportunities to increase the final grade based on progress through
distance learning or other assignments and assessments

2. Assignment of pass/no pass grades for all courses

3. Grading based on students' understanding of applicable course content through
   assessments, projects, portfolios, or other appropriate means

(cf. 5121 - Grades/Evaluation of Student Achievement)

Health Screening of Students

Note: The following optional paragraph reflects recommendations in the Centers for Disease Control and
Prevention's (CDC) Interim Guidance for Schools and Day Camps to conduct temperature checks and/or
visual checks of students before they enter the school. CDC recommends that persons who have a fever of
100.4 degrees or above or exhibit other signs of illness not be admitted to the facility.

Temperature checks may also be conducted before students board a school bus. If not practical, districts
should implement social distancing on school buses as provided in the section "Social Distancing" below
and may require students to wear PPE on the bus as provided in the section "Personal Protective Equipment
and Hygiene Practices" below.

To the extent feasible, students shall be screened for COVID-19 symptoms before boarding a
school bus and/or upon arrival at school each day. The Superintendent or designee shall work
with local health officials to determine the appropriate means of screening, which may
include temperature checks with a no-touch thermometer.

If the screening indicates a fever or other COVID-19 symptoms, or if the student exhibits
symptoms at any time during the school day, the student shall be placed in a supervised
isolation area until the student's parent/guardian is contacted and the student can be
transported home or to a health care facility. School staff may provide the parent/guardian
with referrals to school or community health centers for further testing.

(cf. 5141 - Health Care and Emergencies)
(cf. 5141.3 - Health Examinations)
(cf. 5141.6 - School Health Services)

Student Absence and Attendance

The Board recognizes that COVID-19 will continue to impact the attendance of students
following the reopening of school campuses. The Superintendent or designee shall notify
students and parents/guardians of expectations regarding school attendance. Such
notification shall direct any student who contracts the virus or lives with someone who has
been diagnosed with COVID-19 to stay home in accordance with state and local health
directives so as to curtail the spread of the disease.
COVID-19 MITIGATION PLAN (continued)

Students who are infected with COVID-19 shall be excluded from on-campus instruction until a medical provider states in writing that the student is no longer contagious. (Education Code 49451; Health and Safety Code 120230; 5 CCR 202)

Students who are identified as being in a high-risk population for serious complications from COVID-19 because of a medical condition may request assessment and accommodations under Section 504 and/or an alternative instructional method that allows the student to continue receiving instruction off campus.

Note: Pursuant to Education Code 48205, student absences due to illness or quarantine are considered excused absences. 5 CCR 306 authorizes the school to require a satisfactory explanation from a student's parent/guardian whenever the student is absent. Pursuant to 5 CCR 421, the Board may adopt policy or a resolution establishing reasonable methods for verifying student absences, and absences due to illness or quarantine may be verified by a school or public health nurse, attendance supervisor, physician, principal, teacher, or other qualified district employee assigned to make such verification. See AR 5113 - Absences and Excuses for verification methods authorized by the district.

When a student is absent, the student's parent/guardian shall notify the school of the reason for the absence. A physician's verification of a student's illness or quarantine may be required.

(cf. 5113 - Absences and Excuses)

If a student would otherwise be required to attend on-campus instruction but is kept home by the parents/guardians due to concerns for the welfare of their child, the principal or designee shall work with the student and parent/guardian to find alternative means of instruction, which may include distance or blended learning, independent study, printed class assignments, or other reasonable means.

(cf. 6154 - Homework/Makeup Work)

Note: Pursuant to the Governor's Executive Order N-26-20, districts are not penalized for failure to offer regular school days when campuses are closed due to COVID-19. Although districts are not required to record daily attendance for apportionment purposes when campuses are closed, CDE's FAQs for 2019 Novel Coronavirus encourage districts to track participation and engagement in distance learning at such times. As campuses reopen, districts should follow state guidance, when issued, pertaining to attendance accounting.

The Superintendent or designee shall maintain enrollment and student attendance data, including the participation of students in distance learning, and shall report data in accordance with state requirements.

The district employee designated as the attendance supervisor pursuant to Education Code 48240 shall track patterns of student absence throughout the district and regularly report such
COVID-19 MITIGATION PLAN (continued)

repeatedly fails to check in with the teacher when required, the teacher and/or attendance supervisor shall attempt to contact the student or parent/guardian to resolve the issues leading to the absence.

(cf. 5113.1 - Chronic Absence and Truancy)  
(cf. 5113.11 - Attendance Supervision)

Social Distancing

| Note: | Public health officials from the California Department of Public Health (CDPH), CDC, and World Health Organization recommend social distancing to help stop or slow the spread of COVID-19. Social distancing requires creating physical space between individuals and minimizing the size and number of gatherings as much as possible. It is generally recommended that space between individuals be at least six feet whenever possible. |

In order to maintain a campus environment that allows for social distancing, the district shall assess the capacity of school facilities, including classrooms, cafeterias, multi-purpose rooms, gyms, and outdoor areas, and determine the means by which the facilities can best be utilized considering space and time alternatives. To the extent reasonably possible, the district may:

1. Within classrooms, space desks at least six feet apart and position them in a way that limits students facing each other
2. Stagger students in areas of high traffic, such as when students are using lockers, lining up for class, or passing between classes
3. Mark six-foot boundaries within classrooms, common areas, outdoor spaces, and places where students are likely to gather so that students and staff are more readily aware of and can more easily abide by social distancing requirements
4. Utilize restroom stalls and sinks in a manner that allows for social distancing, such as limiting the number of students and/or staff who may use the restroom at a time, blocking off every other stall or sink from use, and/or marking six-foot boundaries
5. Minimize the mixing of students from different classrooms in common spaces, such as in cafeterias and libraries
6. Conduct recess and physical education classes in a manner that allows for social distancing and minimizes the use of physical education equipment

Note: Item #7 is for use by districts that provide transportation for students. CDC’s Interim Guidance for Schools and Day Camps presents examples of bus seating arrangements that may be established to meet the
COVID-19 MITIGATION PLAN (continued)

six-foot social distancing objectives, such as (1) seating one student to a bench on both sides of the bus, skipping every other row, and (2) seating one student to a bench, alternating rows on each side to create a zigzag pattern. Seats that must be left vacant should be marked or blocked.

7. Assess the capacity of school buses and develop a plan for bus routes and bus seating consistent with social distancing objectives

(cf. 3540 - Transportation)
(cf. 3543 - Transportation Safety and Emergencies)

8. Encourage students to walk, bicycle, or travel by private vehicle to reduce the number of students traveling on school buses. Schools may provide designated areas with proper distancing for bicycles to be stored during the school day, and may mark spaces for private vehicle drop-off and pick-up zones.

(cf. 5142.2 - Safe Routes to School Program)

Note: CDPH Guidance for the Prevention of COVID-19 Transmission for Gathering, issued March 16, 2020, states that gatherings that bring together people in a single room or single space at the same time, such as school sporting events, should be postponed or canceled until further guidance is released by CDPH. The Governor's Resilience Roadmap issued in spring 2020 establishes four stages for gradually reopening businesses and activities, with large gatherings generally withheld until stage 4.

Large gatherings, such as assemblies, rallies, field trips, extracurricular activities, and athletic events, shall be suspended until the Board determines, consistent with guidance from state and local health officials, that it is safe to resume such activities. The Superintendent or designee may grant an exception if an activity can be arranged to take place in phases or per class, or modified in a manner that would keep participants from violating social distancing recommendations. When deciding whether an activity may resume, the Superintendent or designee may consider the size of the group that participates, the extent to which the students and other attendees have physical contact, whether the activity can be modified to avoid physical contact, if shared equipment is required for the activity, and if social distancing can be maintained.

(cf. 6145 - Extracurricular and Co-curricular Activities)
(cf. 6145.2 - Athletic Competition)
(cf. 6153 - School-Sponsored Trips)

Personal Protective Equipment and Hygiene Practices

Note: CDC's Considerations for Schools reinforces the value of using cloth face coverings to protect oneself and others, but recognizes that wearing face coverings in all-day settings such as school may be challenging for students, particularly younger students. CDC advises that face coverings be worn as feasible, but especially when social distancing is difficult.
COVID-19 MITIGATION PLAN (continued)

It is also recommended that all staff should use cloth face coverings and that food service workers and other staff who are in routine contact with the public should wear gloves. However, requiring staff to use such equipment may be subject to collective bargaining. Districts are encouraged to review their collective bargaining agreements and applicable memoranda of understanding and consult with legal counsel before requiring staff to use facial coverings.

The Board requires students, staff, and visitors to wear face coverings and may require use of other PPE while on school campuses or school buses, especially in high-traffic areas and/or when social distancing is not possible. If the use of PPE in schools is required by state or local health officials, the district shall provide PPE to students and staff who do not bring their own personal PPE. Students and staff shall be provided instruction in the proper use, removal, disposal, and cleaning of PPE.

Note: The following paragraph reflects a recommendation in CDC's Considerations for Schools and may be revised to reflect district practice.

Face coverings shall not be required for children younger than two years, or for anyone who has trouble breathing or is incapacitated or otherwise unable to remove the covering without assistance. Reasonable accommodations shall be made for anyone who is unable to wear a face covering for medical reasons.

The Board also encourages students and staff to practice good hygiene, such as appropriate covering of coughs and sneezes and regular hand washing of at least 20 seconds, including before eating and after blowing one's nose, coughing, or sneezing. The district shall provide adequate time and opportunity for students to wash hands, and shall make hand sanitizer available in areas where handwashing is less accessible. Signage regarding healthy hygiene practices and how to stop the spread of COVID-19 may be posted in and around school facilities.

Sanitization of Facilities and Equipment

School facilities, school buses, and shared equipment such as desks, tables, sports/playground equipment, computers, door handles, light switches, and other frequently used equipment and supplies shall be cleaned and disinfected daily with appropriate cleaning agents. Disinfectants and cleaning agents shall be stored properly and in a manner not accessible to students.

(cf. 3510 - Green School Operations)
(cf. 3514.1 - Hazardous Substances)
(cf. 4157/4257/4357 - Employee Safety)

The Superintendent or designee shall ensure that ventilation systems are operating properly and that air flow and ventilation within district facilities is increased, to the extent possible,
by opening windows and doors and using fans and air conditioning. Garbage shall be removed daily and disposed of safely.

COVID-19 MITIGATION PLAN (continued)

Food Services

The Superintendent or designee shall ensure that students have access to clean drinking water other than through a drinking fountain, and food which is procured, stored, and served in a manner that reduces the likelihood of COVID-19 transmission and follows state and national guidelines for nutrition.

(cf. 3550 - Food Service/Child Nutrition Program)

For meals that are consumed on school grounds, the Superintendent or designee shall ensure that students will be able to maintain proper social distancing while eating. In order to do so, the Superintendent or designee may consider the consumption of meals in classrooms, gyms, the outdoors, and/or other district grounds.

Meal service shall also be available to students participating in distance learning, which may include and/or entirely consist of a "grab and go" service or delivery.

Due to the changing financial circumstances of many families as a result of COVID-19, the Superintendent or designee shall regularly provide information to students and parents/guardians regarding the free and reduced-price meal program, eligibility, and how to apply for the program.

(cf. 3553 - Free and Reduced Price Meals)

Staff

**Note:** The following section may be subject to negotiations with employee organizations.

Upon request, the Superintendent or designee shall review staff assignments and may reassign employees or offer accommodations on a case-by-case basis to reduce exposure to the virus, especially for high-risk staff. When feasible for the position, employees may be granted a remote work assignment.

(cf. 4030 - Nondiscrimination in Employment)
(cf. 4113 - Assignment)
(cf. 4113.4/4213.4/4313.4 - Temporary Modified/Light-Duty Assignment)
(cf. 4113.5/4213.5/4313.5 - Working Remotely)

**Note:** The Governor's Executive Order N-26-20 requires that districts continue to pay employees even if campuses close temporarily due to COVID-19. Furthermore, according to Office of Management and Budget Memorandum M-20-17, during extraordinary circumstances such as a pandemic which interrupts district operations, employees paid with federal grant funds can continue to be paid out of federal grant funds as long as other similarly situated employees paid with nonfederal funds are continuing to get compensated. See BP 4151/4251/4351 - Employee Compensation.
COVID-19 MITIGATION PLAN (continued)

In the event that employees are unable to perform their duties due to partial or full closure of campuses, the Board shall compensate employees as permitted by law.

(cf. 4151/4251/4351 - Employee Compensation)

Any employee who contracts the virus, shows symptoms of possible infection, or is caring for someone who has been diagnosed with the virus shall self-quarantine for the period of time recommended by health authorities in order to prevent the spread of the disease to students or other staff.

Note: Education Code 44978 and 45191 and Labor Code 245-249 establish minimum sick leave entitlements for district employees; see AR 4161.1/4361.1 - Personal Illness/Injury Leave and AR 4261.1 - Personal Illness/Injury Leave. If an employee continues to be absent for up to five months after exhausting all available sick leave, the employee may be entitled to differential pay in accordance with Education Code 44977, 44983, and 45196. In addition, an employee may use leave granted by the Family and Medical Leave Act (FMLA) (29 USC 2601-2654) or California Family Rights Act (Government Code 12945.1-12945.2) for the employee’s own serious health condition or to care for a child, spouse, or parent/guardian with a serious health condition; see AR 4161.8/4261.8/4361.8 - Family Care and Medical Leave.

An employee may use personal illness and injury leave and/or family care and medical leave, as applicable, if the employee is unable to work or telework because the employee is ill or needs to take care of a spouse, parent/guardian, or child with COVID-19 or other serious health condition. (Education Code 44978, 45191; Government Code 12945.1-12945.2; Labor Code 245-249; 29 USC 2601-2654)

(cf. 4151/4361.1 - Personal Illness/Injury Leave)
(cf. 4161.8/4261.8/4361.8 - Family Care and Medical Leave)
(cf. 4261.1 - Personal Illness/Injury Leave)

Note: The remainder of this section reflects provisions for expanded leave granted by the federal Families First Coronavirus Response Act (P.L. 116-127).

29 USC 2601 provides up to 80 hours of paid sick leave for eligible employees for the reasons specified in items #1-6 below. Eligible employees are entitled to their regular rate of pay for leave taken pursuant to items #1-3 (up to $511 per day and $5,110 in total) or two-thirds their regular rate of pay for leave taken pursuant to items #4-6 (up to $200 per day or $2,000 in total). The district must not require an employee to use other paid leave before the employee uses the paid sick leave granted under this Act.

Until December 31, 2020, an eligible employee may take paid sick leave for up to 80 hours, or the number of hours that a part-time employee works on average over a two-week period, if the employee is unable to work or telework because the employee is: (29 USC 2601)

1. Subject to a federal, state, or local quarantine or isolation order related to COVID-19
COVID-19 MITIGATION PLAN (continued)

2. Advised by a health care provider to self-quarantine due to concerns related to COVID-19

3. Experiencing symptoms of COVID-19 and seeking a medical diagnosis

4. Caring for an individual who is subject to a federal, state, or local quarantine or isolation order or has been advised by a health care provider to self-quarantine

5. Caring for the employee's child whose school or child care provider is closed or unavailable for reasons related to COVID-19

6. Experiencing any other substantially similar condition specified by the U.S. Department of Health and Human Services

Employees shall be paid their regular rate of pay for leave taken pursuant to items #1-3 above, or two-thirds their regular rate of pay for leave taken pursuant to items #4-6 above, within the limits specified in law. (29 USC 2601)

Note: Leave granted to an employee who needs to care for a child whose school or child care provider is closed due to COVID-19 (item #5 above) may be extended pursuant to 29 USC 2620. Employees must be restored to their position following such leave, unless the district has fewer than 25 employees and specified conditions are met.

For the purpose specified in item #5 above, eligible employees who have been employed by the district for at least 30 calendar days shall be granted extended leave for up to 12 work weeks upon request. The first 10 days of such leave shall be unpaid unless the employee uses accrued vacation leave, personal leave, sick leave, or paid sick leave granted pursuant to 29 USC 2601. After the first 10 days, the district shall pay not less than two-thirds of the employee's regular pay for the number of hours per week the employee normally works, with a maximum of $200 per day and $10,000 for the total period. Eligibility for extended leave for this purpose is subject to the employee's eligibility for leave pursuant to the Family and Medical Leave Act. (29 USC 2601, 2620)

Note: The following notice is available on the web site of the U.S. Department of Labor.

The district shall post, in conspicuous places where employee notices are customarily posted, a notice prepared by the U.S. Department of Labor regarding the requirements of 29 USC 2601 and 2620. (29 USC 2601)
COVID-19 MITIGATION PLAN (continued)

Follow-Up with Infected Persons/Contact Tracing
The Superintendent or designee shall work with county health officials to track confirmed cases of students and staff with COVID-19, including, but not limited to, following up with students, their parents/guardians, and staff who exhibit symptoms while at school and those who report an absence or miss work due to illness. The Superintendent or designee shall report confirmed cases to local health authorities.

Note: The following optional paragraph reflects a recommendation in CDC's Interim Guidance for Schools and Day Camps pertaining to contact-tracing.

If a student, family member of a student, or staff member has tested positive for COVID-19, the district shall assist local health officials in conducting contact-tracing to identify potentially exposed individuals and ask them to self-quarantine, which may include not participating in on-campus instruction. While maintaining the privacy of the infected person, the district shall inform other students and staff with whom the infected person may have had contact in school.

Nondiscrimination

The Board prohibits discrimination based on actual or perceived medical condition or disability status. (Government Code 11135)

(cf. 0410 - Nondiscrimination in District Programs and Activities)

Individual students and staff shall not be identified as being COVID-positive, nor shall students be shamed, treated differently, or denied access to a free and appropriate public education because of their COVID-19 status or medical condition. Staff shall not disclose confidential or privileged information, including the medical history or health information of students and staff. (Education Code 49450)

(cf. 4119.23/4219.23/4319.23 - Unauthorized Release of Confidential/Privileged Information)

The Superintendent or designee shall investigate any reports of harassment, intimidation, and bullying targeted at any student based on COVID status, exposure, or high-risk status.

(cf. 1312.3 - Uniform Complaint Procedures)
(cf. 5131.2 - Bullying)
(cf. 5145.3 - Nondiscrimination/Harassment)

Community Relations
The Superintendent or designee shall use a variety of methods to regularly communicate with students, parents/guardians, and the community regarding district operations, school

schedules, and steps the district is taking to promote the health and safety of students. In addition, the members of the Board have a responsibility as community leaders to communicate matters of public interest in a manner that is consistent with Board policies and bylaws regarding public statements.

(cf. 1100 - Communication with the Public)
(cf. 1112 - Media Relations)
(cf. 9010 - Public Statements)

The district shall continue to collaborate with local health officials and agencies, community organizations, and other stakeholders to ensure that district operations reflect current recommendations and best practices for keeping students, staff, and visitors safe during the COVID-19 state of emergency. The Superintendent or designee shall keep informed about resources and services available in the community to assist students and families in need.

(cf. 1400 - Relations Between Other Governmental Agencies and the Schools)
(cf. 1700 - Relations Between Private Industry and the Schools)

While the Board recognizes the rights of parents/guardians to participate in the education of their children and the critical importance of parental involvement in the educational process, all visitors and volunteers are encouraged to respect guidelines regarding social distancing and large gatherings. School visitors and volunteers shall be limited in number and expected to observe all district protocols for COVID-19. The Superintendent or designee may place signage around the school advising that visitors and volunteers may be required to use PPE while on school sites and interacting with school personnel, and may keep a supply of such equipment available for their use.

(cf. 1240 - Volunteer Assistance)
(cf. 1250 - Visitors/Outsiders)

Use of school facilities by persons or organizations for community purposes involving large gatherings shall be suspended until the Board determines, consistent with guidance from state and local health officials, that it is safe to resume such activities. The Superintendent or designee may only grant an exception if the number of participants in the activity will be limited and the person or organization follows the processes and protocols established by the district to minimize the health risks associated with COVID-19.

(cf. 1330 - Use of School Facilities)

Potential Reclosure of Campus
COVID-19 MITIGATION PLAN (continued)

The presence of COVID-19 cases within a school. Such mitigation strategies may include closing campuses when the district determines, in consultation with state and local health officials, that keeping campuses open presents a risk to students, staff, and the community.

The district shall monitor student and staff absences and data provided by local health officials to determine if there is a risk of resurgence of COVID-19 and a need to reclose school campuses for the protection of students, staff, and the community. The Superintendent or designee shall develop plans and procedures for alternative methods of operations to the extent possible in the event that reclosure becomes necessary.

If any person diagnosed with COVID-19 is known to have been in district building(s), the Superintendent or designee shall immediately notify local health officials to determine a course of action. The building should be closed until cleaning and disinfecting of the building can be completed and the district can consult with local health officials to determine, based on up-to-date information about the specific cases in the community, whether an extended closure is needed to stop or slow further spread of COVID-19.

If local health officials report that there has been no community transmission of COVID-19, or minimal to moderate transmission in the community, school campuses may not necessarily be closed, but the district shall continue to take all preventative measures described in this policy.

If local health officials report substantial community transmission of COVID-19, campus closures of more than two weeks may be necessary, and the Superintendent or designee shall cancel group activities and events during that period. Campuses shall not reopen until recommended by local health officials.

Meeting Aug 19, 2020 - RSD Regular Board Meeting
Category 8. Discussion/Action
Subject 8.3 Approval of Rio del Valle Middle School New/Revised Course Descriptions for the 2020-2021 School Year
Access Public
Type Action, Information
Fiscal Impact No
Budgeted No
Budget Source Not applicable
Recommended Action
It is recommended that the Governing Board approves these courses for the upcoming school year. This will allow RDV and other middle schools within our district to reflect the student's rigorous course work on their transcripts.

Goals
Goal 4: Prepare students to be college and career ready through technology and innovation that facilitates collaboration, creativity, critical thinking and communication.
Goal 1: Improved student achievement at every school and every grade in all content areas.

Public Content
Speaker: Adrienne Peralta/Oscar Hernandez
Rationale:
Rio del Valle Middle School is requesting your consideration and approval for the following courses: 6th grade Math Honors, Language Arts Honors, Social Science Honors, and Science Honors.

Rio Del Valle has had a strong honors program for the past several years. Offering 7th and 8th graders honors courses in the content areas, as well as Spanish 1. It was found that while we have classes designated as honors in 8th grade Language Arts, Math, Science, and Social Science; in the 7th grade only Language Arts and Math are designated as honors. Students are receiving the rigor and depth of an honors course, but this is not reflected on their transcripts currently.

**COURSE DESCRIPTION:**

This course is for students who have been recognized for exceptionally high achievement in social science. The course offers in-depth coverage of grade level standards as written in the California Common Core Standards, providing added challenge, rigor, differentiation, and enrichment to students. Initial placement depends on a combination of criteria including test scores, grades, teacher recommendations, and availability of space.

Students in this course will develop skills used by historians such as critical thinking/reading, essay writing, and analysis of historically significant documents. As set forth in the state standards, students will engage in a study of ancient civilizations, geography, the examination of social, cultural, economical and technological innovation during the period beginning early man and through the development of Ancient civilization such as that of Egypt, Rome, Greece, China, India, and parts of the Middle East. Students review methods used by archaeologists and historians to analyze the growth and development of these ancient civilizations, as well as their contributions to the present day. Students will develop 21st Century skills as they dive into an in depth study of how these ancient civilization developed new forms of government, the role religion played in their costumes and development of their societies, the growth of economics, music and art, and the social structures developed as a result.
COURSE DESCRIPTION:

This course is for students who have been recognized for exceptionally high achievement in science. The courses offer in-depth coverage of grade level standards as written in the Next Generation Science Standards, providing advancement via added challenge, rigor, differentiation, and enrichment to students. Initial placement depends on a combination of criteria including test scores, grades, teacher recommendations, and availability of space.

The foundation for this course is the Next Generation Science Standards (NGSS) for sixth grade. This is an Integrated Science course which includes the study of: Acids and Bases; Decomposition and Synthesis; Oxidation and Reduction; Chemical Formulas; and Gas Laws. Student writing demonstrates mastery of the critical attributes for grade level and indicates proficiency in reading comprehension in order to access the Science curriculum. AVID and other research based strategies (i.e. Blooms, Marzano, Kagan, Archer, Kinsella) are also integrated into the curriculum. Implementation of 21st Century skills will be developed and implemented in the course of study. Students will engage in analysis through science labs, collaborative and critical debates on current topics. Students will creatively and academically demonstrate their knowledge and understanding of the content standards. Systematic progress monitoring and benchmark assessments inform instruction and appropriate placement for intervention/enrichment opportunities.

**COURSE DESCRIPTION:**

This course is for students who have been recognized for exceptionally high achievement in mathematics. The course offers in-depth coverage of grade level standards as written in the California Common Core State Standards, providing advancement via added challenge, rigor, differentiation, and enrichment to students. Initial placement depends on a combination of criteria including test scores, grades, teacher recommendations, and availability of space.

The foundation for this course is the California Common Core State Standards for Sixth Grade Math. By the end of sixth grade, students will master the four arithmetic operations with whole number, positive fractions, positive decimals and integers. They apply their knowledge of number, data analysis and probability to solve problems. Students conceptually understand and work with ratios and proportions; they compute percentages (e.g., tax, tips, interest). Students use their understanding of plane and solid figures to solve problems involving perimeter, area and volume, in particular the circumference and area of circles. Students write verbal expressions as algebraic expressions and equations; they evaluate algebraic expressions, solve simple linear equations and graph and interpret their results. The course reviews and completes the study of whole numbers, decimals and fractions, concept of algebra, discrete numbers, functions and patterns, geometry, logic, probability and statistics. Attention is given to manipulative, proportional relationships, multiple representations, patterns and generalizations, real life application and problem solving strategies. AVID strategies are embedded into the curriculum as well. The math program prepares students for honors 7th grade standards.
COURSE DESCRIPTION:

This course is for students who have been recognized for exceptionally high achievement in Language Arts. The course offers in-depth coverage of grade level standards as written in the California Standards, providing advancement via added challenge, rigor, differentiation, and enrichment to students. Initial placement depends on a combination of criteria including test scores, grades, teacher recommendations, and availability of space.

The foundation for this course is the California Common Core State Standards for Language Arts Standards for sixth grade. The language arts processes of reading (comprehension, fluency and higher thinking skills), writing, listening, and speaking are taught in an integrated and inter-related manner. Course components include the study of various literary genres and informational materials, writing in the genres of narrative, persuasive, expository which includes summaries and response to literature, direct instruction in language arts skills and strategies, including vocabulary development, spelling, grammar, oral and written language skills. Student writing demonstrates mastery of the critical attributes for each genre and indicates proficiency of grade appropriate writing strategies and conventions. Students will be able to connect their learning with the learning they are engaging in through other content material. AVID and other research based strategies (i.e. Marzano, Kagan, Archer, Kinsella) are also integrated into the curriculum. Students will practice and integrate 21st Century skills as they develop an in-depth knowledge of the function of literary techniques to present their thoughts, debate their positions, and inform others through structures of research and analysis. Systematic progress monitoring and common formative assessments inform instruction, and inform each student’s learning plan and enrichment opportunities.

MEMORANDUM OF UNDERSTANDING
BY AND BETWEEN
THE RIO SCHOOL DISTRICT AND
THE CALIFORNIA SCHOOL EMPLOYEES ASSOCIATION
(AGREED TO 7-21-2020)

1. The Rio School District ("District") and the California School Employees Association ("CSEA") agree to an early retirement incentive program for classified employees as set forth below. This early retirement incentive plan ("Plan") is designed to make a contribution to help offset the cost for classified employees electing to remain employed beyond their eligible retirement date because of the cost of health benefits imposed on them until reaching age 65, the current age for Medicare eligibility.

2. This program is a voluntary early retirement incentive plan available to all permanent classified employees who have served ten (10) or more years as employees of the District, are at least age fifty five (55) at age of retirement, and eligible to retire under the Public Employees Retirement System, with an effective retirement/resignation date between April 1, 2020 and August 31, 2020. The unit member electing the Plan must terminate employment with the District effective no later than August 31 of the retirement year.

3. Employees who have involuntarily separated or whose employment has been terminated by the District shall not be eligible for benefits under the Plan.

4. Participating employees shall not be eligible for any other District-sponsored retirement incentive programs.

5. The District agrees to provide to those who qualify pursuant to this Plan the following:

   a. The PLAN is a one-time payment paid on August 31, 2020 and subject to all applicable taxes;

   b. The Early Retirement Incentive amount of $10,000 is per Full Time Employee ("FTE"). If an employee works less than eight (8) hours per day, the incentive will be pro-rated based on the number of hours per day that the employee worked according to the examples below:

      - 6 hour employee = 75% or $7,500
      - 5.75 hour employee = 72% or $7,200
      - 4 hour employee = 50% or $5,000

   c. In order to receive the Early Retirement Incentive, a unit member must qualify pursuant to the PLAN and must submit completed paperwork including a letter of intent to retire effective between April 1, 2020 and August 31, 2020 no later than August 7th, 2020 to the Human Resources Department.

   d. Additionally, in compliance with the Older Workers Benefit Protection Act, each unit member who elects to submit his/her retirement/resignation pursuant to this Agreement has the opportunity to withdraw his/her intent to retire/resign on or
before August 15, 2020. The revocation must be in writing and received no later than 4:30 pm on August 15, 2020. After that date, the agreement to retire/resign and receive the plan is final and irrevocable.

6. The District and CSEA specifically agree that the District has not made any representations or given any advice as to the tax or retirement consequences of the Plan to any individual unit member, that the District is not responsible for or liable for any such tax or retirement consequences to unit members, and recommends that members consult their own tax preparation professional, retirement counselor, or other legal advisor with respect to the effect(s), if any, of the Plan on their individual tax responsibility or the retirement implications for long term income.

7. This Plan is offered only for eligible unit members on a one-time basis between April 1, 2020 and August 31, 2020, and will automatically cease on August 31, 2020. It will be evaluated for its continuation on the basis of its potential cost savings. Continuation of the Plan will require an affirmative written agreement between the District and CSEA.

8. The parties to this Agreement stipulate that this Agreement is unique to the existing circumstances and neither the fact of this Agreement nor its contents in whole or in part, or the District’s actions in furtherance of its obligations under this Agreement shall be construed to be or used by CSEA or its unit members as evidence of any precedent or past, present or future practice, procedure or offering on the part of the District. This Agreement shall not be admitted in any tribunal as evidence of any of the above except if CSEA contends that the District violated this Agreement.

9. A unit member who chooses to retire/resign pursuant to this Plan represents and agrees that he/she has carefully read and fully understands all of the provisions of this Agreement, that he/she has been given the opportunity to fully discuss the contents of this Agreement with an independent representative or attorney of his/her choice and that he/she is voluntarily entering into this Agreement without coercion, duress, or undue influence.

10. Participants may have the incentive payment deposited directly into the participant’s 403(b) savings plan to the extent permitted by law.

11. The District and CSEA have cooperated in the drafting and preparation of this Agreement. In any construction to be made of this Agreement, the same shall not be construed against the District or CSEA.

12. This Agreement constitutes the entire understanding between the parties pertaining to the subject matter hereof, and is the final, complete and exclusive expression of the terms and conditions of their Agreement, and supersedes all prior agreements, written or oral, between the Parties. Any and all prior agreements, representations, negotiations and understandings made by the parties, oral and written, express or implied, are hereby superseded.

13. This Agreement is entered into and shall be construed and interpreted in accordance with the laws of the State of California. Should any provision of this Agreement be declared or determined by any court of competent jurisdiction to be illegal, invalid, or unenforceable,
the legality, validity, and enforceability of the remaining parts, terms, or provisions shall not be in any way affected thereby. Any dispute about its application is subject to the arbitration process in the collective bargaining agreement between CSEA and the District.

14. This Agreement shall sunset on August 31, 2020.

15. This Agreement is subject to approval of the District’s Board of Education.

My office hours are every Monday at the District Office where departments, Principals and Leadership team will email me changes, events, and notices that may arise. During this past year we have grown our social media following on Instagram, Twitter and Facebook to allow parents another way of getting information from the school district. This was a big way information was passed along during the school closures as we were constantly updating websites and social media accounts.

Rio Summer Literacy Program with Literacy Support Team (LST) staff

The Rio Summer Literacy Program 2019 encouraged reading interest, fluency and meaning making during the summer months as well as combating summer loss which is commonly experienced by English Learners and children from economically disadvantaged home environments. The Rio Summer Literacy Program’s purpose was to engage grade 3-5 learners who need the most help with reading. The program provided baseline comprehension assessments of leveled reading passages with weekly follow-up and end of summer assessments to demonstrate quantitative growth and standards meeting for basic detail and inferential comprehension of leveled reading passages.

The Literacy Support Team (LST) staff provided personalized engagement with students as readers. LST staff provided access to books and literacy activities many children may not have during summer. The Rio Summer Literacy program was able to eliminate summer reading loss for more than 90% of the 100 students who attended 7 out of the 9 sessions.

September 2019-March 12, 2020  
Districtwide fluency/retell/accuracy/comprehension for grades 3-8 with LST staff, Trimesters 1, 2, 3.

LST’s approach is a custom tailored one, i.e. it helps teachers and schools craft the human / computer / human pathways that work best for the specific local and learning environments. In this sense, LST is a Learning Environment design team that crafts and adjusts software tools to meet the needs of the learner and organization. The aim of LST is to use technology and the human factor to help students improve their reading skills and to motivate them to read. LST staff, using the Learning Priority (LP) Fluency and Comprehension suites, provide the 3rd-8th grade students and teachers with simple authentic tasks to measure fluency, accuracy, prosody and basic comprehension, three times per school year. It also allows students to do immediate feedback word work that is so critical to developing higher level understanding of the content in texts. Students enjoy the privacy of their fluency suite work as well as the immediate auditory and visual feedback they get when listening to themselves reading. LST provides instant grading and literacy coaching while integrating reading development with texts of all kinds, as selected by teachers. At Rio Real we did this for both English and Spanish classes.
Students record themselves reading a grade leveled passage. Their fluency is measured by (number of words read correctly in one minute WCPM). Their accuracy is measured by what percentage of the words they read correctly and their retell score (oral comprehension measured on a 1-4 rubric) as they are asked to orally summarize what they just read. The retell is recorded as well. Students take a short comprehension quiz on the passage. They are able to see the passage, reread, skim it for information etc… and they often do. They then have to answer 5 questions, each with 4 possible correct answers to choose from. When they complete the quiz they “submit the changes” and they are immediately given feedback on the score they earned. The reading accuracy passage is scored by LST staff and word work activities are generated for students to learn and demonstrate mastery of their error words. Error words identified produce word work on the LP system which asks students to listen to the word pronounced correctly, read a definition, and then use the word appropriately in a sentence they write and record orally.

LST Individual School Focus Services

Rio Del Mar LST Services

During this past school year LST worked closely with Principal Guynn, 3-5th grade teachers and students to practice skills in order to improve student literacy and fluency. Learningpriority.com tools were used to assess, monitor and improve progress.

- LST not only used this valuable tool to implement reading activities but LST members also had the opportunity to create a close relationship as Educators with the targeted classes. It is an excellent example of what showing personal interest in student progress and using valuable technology can do to create a more successful education experience.
- The team was able to make this connection with Rio del Mar by visiting individual classes and small groups from once to twice a week and guiding students to complete reading comprehension quizzes, fluency, accuracy, and sight word assessments. Teachers, knowing their students’ needs, referred articles and passages to LST to create curriculum relevant activities for the students. This triple workforce: Teacher-LST-Student connection resulted in a stronger educational experience.

Exactly what activities did LST implement while working with the students and what were the results?

- Fluency Assessments
- Comprehension Quizzes
- Sight Words Assessments
- Reading Register - Written and Audio Reviews, Illustrations depicting comprehension.
- Reading together in Small Groups

Fluency, Accuracy and Comprehension Testing every trimester gave data on school literacy levels. As these results were compared each trimester, teachers and administration were able to see how many students were reading at grade level and how many students needed to improve their literacy.

More specific assessments were created to measure student progress, for example: sight words assessments. 3rd grade classrooms were tested weekly on a portion of the 180 Irregular 3rd Grade Words. Results were recorded weekly and shared with the student and teacher. Using the Word Work feature from Learningpriority.com, students were assigned a set of vocabulary words generated from the student’s error words which they worked on every week. Teachers were provided with assessment results from Irregular Word Testing and a list of common error words generated from the classroom results, as shown in the 5th grade chart below.

One of the most valuable interactions LST made with classrooms was providing weekly data on student progress. These Literacy assessments were usually done once a trimester, however, in the case of Del Mar students, they had the opportunity to be assessed weekly and self-measure progress. The following chart shows the results teachers and students viewed each week from a 4th Grade class.

**Del Mar 4th Grade Jan-March 2020**

If we take this class as an example to measure progress after about two months of practice reading aloud and retell of what was just read we can see a significant improvement, as the next chart shows.

**Del Mar 4th Grade Jan-March 2020**

What do these results reveal?
When students are provided by their teachers with constant data on fluency assessments, when they are given specific goals like reading with good fluency or relevant vocabulary to improve and can easily identify what they need to improve and when they are given the opportunity to practice a certain skill constantly like reading with accuracy or summarizing what they just read, there will be improvement.

Fluency, interest, meaning making—have defined the relationship LST has created with whole classes, small groups and individuals. Each teacher has chosen different ways to take advantage of the help LST provides.

One case in point: a particular 3rd grade teacher worked with LST to focus on learning the 180 irregular words. Each week her students were tested on a set of 60 words. Students received results.
weekly on their assessments and worked on the feature “word work” being exposed to correct pronunciation of the words they had yet to read correctly, the definition and then using it in a sentence. As a result, more students were shown to have mastered the 180 Words or a portion of them than at the beginning, as the chart below shows.

**Valdez/Arreola 3rd Grade Scores**

In addition, monthly Reading Register activities gave students the opportunity to demonstrate comprehension of passages and books they had read in a group or individually. They were given other interesting, interactive ways to show comprehension and understanding—illustrations scanned and uploaded to LP and Audio summaries recorded by the student. It is especially notable that small groups working with Reading Register activities gave students weekly practice to develop the skill of writing a summary and stating their opinion as the following examples show.

Mr. O’Leary - 5th grade
Mr. O’Leary’s class worked with the Reading Register suite from Learning Priority. As with the other classes, the students were asked to select a book of their choice and one of the four Reading Register activities. We were also able to establish a good rapport with the students which resulted in increased Reading Register activity participation.

Mr. Valdivia - 4th grade
Mr. Valdivia’s class used the Reading Register tool to encourage reading and meaning making. Students were able to choose a book and then, after reading, move on to an activity, namely writing a review, an audio retell, creating a quiz or an art representation.

Mrs. Valadez - 3rd grade
Mrs. Valadez’s class was able to benefit from the tools Learning Priority offers with the help of the Literacy Support Team. She had her class do a weekly fluency and comprehension assessment and was able to monitor student progress. She also, on a daily basis, used the Reading Register suite with her students to encourage reading and meaning making.

Mrs. Juarez - Kindergarten
Mrs. Juarez's class worked with the Reading Register suite. To encourage meaning making, the students were read to, then they were asked to create an image of what they remembered or what stood out to them. This was done once a week.

Rio Del Norte LST Services

During this past school year LST worked closely with Principal Emery, 2nd-5th grade teachers and students to practice literacy and fluency improvement skills. *Learningpriority.com* tools were used in order to assess, monitor and improve progress.

LST staff also worked with students in grades 2 -5 with the after school program, collaborated with the Boys & Girls Club staff and the students' teachers in administering LP assessments in fluency, accuracy, retell, and comprehension. In addition to using LP, students in this program were progress monitored weekly. Researched strategies were implemented in instructional approaches to reading, comprehension, vocabulary, and writing development. LP was used to deliver weekly assessments and
progress monitoring. Based on the data LP provides, LST staff were able to individualize their instruction according to student needs. Instructional support included using paired reading, repeated reading, audio assisted reading, vocabulary using LP word work, frontloading vocabulary from the texts prior to reading and reviewing the vocabulary during the reading. Other approaches included student engagement and prompting before, during and after reading to make personal connections with the text for comprehension and meaning making. Differentiation on the assessments for struggling readers included leveling down the assessments to appropriate passage reading levels based on the students reading level and data. Students engaged in their own learning, as we worked with them to make a graph chart to progress monitor their fluency, towards setting their own fluency goals.

Districtwide Math Initiative for 5th grade with LST staff

LST worked with the RSD fifth graders to develop math interest, fluency, and meaning making through engaging them in human computer human interactions, aimed at building foundational fluency and practices centered on fractions, decimals, and percentages. LST used the LP Fractions, Decimals, Percentages suite which includes untimed and timed short answer quizzes with automatic scoring that assesses students’ fluency with fraction identification, conversion to decimals and percentages and equivalent fractions. LST worked with the entire fifth grade, one elementary school at a time. Students also worked the multiple level LP Gear game to challenge their knowledge of fractions and equivalents as well as engaged their creativity in the creation of radial designs, utilizing colored cells and three different spin speeds.

5/13/2020

Dear Dr. Puglisi,

Below is my 2020-2021 Drama proposal for the Rio School District to present to the board. Teaching students this year I assume will be very different from prior years, therefore I am proposing some alternative methods of learning Drama through on-line classes if needed. All of workshops I am proposing to teach I have taught this past year in person, and they continue to prove successful. My weekly workshops, camps and daily classes improve students’ self-confidence, bring a positive, can-do attitude and support the 5 C's. These Drama classes will also increase student enrollment for the Middle School Musical. I believe that all of these drama classes and plays will create an artistic, and dynamic environment that students will blossom in, taking the Rio District to yet another new level of artistic excellence. Thank you again for giving me the opportunity to work with all student's during this very difficult time.

Sincerely,

Diane DeLaurentis

3. RIO VISTA MIDDLE SCHOOL DRAMA MUSICAL: SHREK JR.
October 1st to March, 13th
Where: RVM, room 13
Days: Thursdays and Tuesdays
Time: 3:30-6:00
Students Participating: 50 (5th-8th graders)
Description: Directed Rio Vista Middle School musical. Also, guided 4 RIO Alumni students to help with choreography and stage management. These High School students loved our musical production so much when they were at Rio, they volunteered to help in any way, just to be a part of it! They created dances, which were approved by me, and taught the students routines, including tap! Under my direction, the cast taught theater etiquette, stage rules, blocking, character exploration, allowed creative input, and reminded that their commitment and effort mattered. I worked with the Musical Director, Art Director, Technical Director and Orchestral Director to create a central idea, look and style for the show. I connected the message of play to the student’s real lives. Although, the production had to be cancelled this spring, I hope to perform this play with students on stage if possible, if not at least do a virtual performance. Rio Vista Middle School students auditioned for lead roles, smaller roles and ensemble. Elementary students, from the RDM, RL, RN & RDS auditioned for the ensemble.

4. HHM DANCE PERFORMANCE 2019
   January 1st – March 13th
   Students: 40
   Days: Mondays
   Time: 3:30-6:30

Description: This year, with HHM, I directed a hip-hop ballet focusing on symbolizing human struggles. It was made up of several vignettes that in the end wrapped together to show the struggle of the principal dancer. It was done in the style of the GREATEST SHOWMAN, and was to be performed as if in a circus.
   Elementary students throughout the district were cast in the roles, along with High School students and adult dancers. Bright costumes, special effects, and graphics were also used to tell the story. My job was to bring a cohesive idea to the production, as well as instruct dancers in acting. Although this year we were not able to perform due to the corona virus, students were given a professional experience during practice. In addition, RVMS Choir was supposed to participate in performance as well. Hoping this show will be performed sometime in the future.

5. RVMS DRAMA ELECTIVE (Musical Theater Production)
   Students: 8 (Since this elective was offered late)
   Days: M-F
   Time: 8:50am-9:43am (Now WEDNESDAY Student Meeting (3pm-4pm) with additional hours M-F 1pm-2pm for questions, streaming, posting and assignments)

Description: (53 minutes) This year I instructed students to demonstrate drama skills everyday in class. Individual and group projects included: WORLD DRAMA PRESENTATION, STORY THROUGH PANTOMIME, DANCE OR MOVEMENT, MUSICAL SINGING PERFORMANCE, MUSICAL CHARACTER STUDY, AUDITIONING WITH A
MONOLOGUE and a class performance of Act II of OUR TOWN. In addition, students were tested weekly on drama vocabulary and language, and practiced acting skills, movement, voice, staging, directing, lighting, stage combat, blocking, projection, auditioning technique, presentation technique, dance combinations, pantomime and learning professional etiquette. Presently, students are demonstrating Drama skills by sending in weekly video diaries pertaining to the Corona Virus epidemic. In addition, students are being asked to interview relatives, make a news presentation, and shoot a commercial, using technology, sets, camera angles, special effects, make-up and costume.

6. RIO DISTRICT DRAMA VIDEO SERIES
Video Length: 15 minutes videos. Pre K – 8th can view these drama tutorials and workshops. Videos may be viewed in sequence or independently. Meeting: Aug 19, 2020 - RSD Regular Board Meeting
Category: 9. Consent
Subject: 9.16 Contract for Speech Pathologist Services
Access: Public
Type: Action (Consent)
Fiscal Impact: Yes
Dollar Amount: 198,912.00
Budgeted: Yes
Budget Source: Special Education funding
Recommended Action: Staff recommends board approval of Speech Pathologist Services Contract.

Public Content

Speaker: Rebecca Rocha

Rationale:

Since the previous board approval for Speech Pathologists we have had a resignation of a contracted SLP who is moving to the east coast. Furthermore, we were still short .5 FTE. With this contract we will replace the SLP who is moving on and complete staffing for the year. The new speech pathologist has many years of experience and the part-time speech pathologist was working with us in the past year. Both have the knowledge and the skills to support our students either live or in a virtual model.

Contracted Speech Pathologists will be held to same standard as district employees and will be provided training to ensure that they are able to conduct appropriate assessments, write legally compliant reports, write and hold effective IEPs, and meet the needs of their students’ IEPs. Contracted Speech Pathologists will attend regular district trainings in order to build rapport within the department and strengthen district special education programs.

Re: Safety Memo and Guidelines for all Guests and Community Partners

The COVID-19 pandemic has found us in some unprecedented times and has impacted the way school districts educate students and the way we do business. We are asking all guests and community partners to adhere to the following safety guidelines while on any of our school campuses, district offices or when working with any of our students and families in the community.

The Rio School District has been working very hard to ensure that the working environment is a safe and healthy place to be that minimizes COVID-19 contact risk. This letter consists of expectations you, as guest of the Rio school District, will be expected to follow and adhere to as you work with our district employees and families. These expectations consist of the safest guidelines recommended at this time and were developed utilizing recommendations from the CDC, CAL OSHA, and the CDPH as well as working collaboratively with our local health department.

On August 3rd, 2020, we will begin resuming operations of our school site offices operating under a “new normal” and with strict expectations for workplace behavior that is reflective of safety and precautionary measures aimed at reducing the risk of transmission of COVID-19 and protecting oneself and other employees.

The following is a detailed description of those measures and the expectations of each employee as we return to operations under a “new normal”.

Each employee and guest will be asked to complete a passive screening survey prior to reporting to any of our district campuses or offices. Please stay home if you believe you could be exhibiting COVID related symptoms.

Passive Screening Expectations:

- Take temperature - if 99.5 Fahrenheit by the no-touch temporal or forehead method (utilizing a no-touch thermometer) or 100.4 degrees Fahrenheit orally (utilizing a mouth under the tongue thermometer) or higher, stay home;
- Fever or chills
- Cough
- Shortness of breath or difficulty breathing
- Fatigue
- Muscle or body aches
- Headache
- New loss of taste or smell
- Sore throat
- Congestion or runny nose
- Nausea or vomiting
- Diarrhea

- Employees and guests should stay home until free of signs of fever (99.5 degrees or higher) and free of any other symptoms for at least 24 hours; They should be free of fever and symptoms

**Employee and Guest Expectations to Wear a Mask/Face Covering:**

**How COVID-19 spreads:**

COVID-19 spreads mainly from person to person through respiratory droplets produced when an infected person coughs, sneezes, talks, or raises their voice (e.g., while shouting, chanting, or singing). These droplets can land in the mouths or noses of people who are nearby or possibly be inhaled into the lungs. Recent studies show that a significant portion of individuals with COVID-19 lack symptoms (are “asymptomatic”) and that even those who eventually develop symptoms (are “pre-symptomatic”) can transmit the virus to others before showing symptoms.

To reduce the spread of COVID-19, CDC recommends that people wear cloth face coverings in public settings when around people outside of their household, especially when other social distancing measures are difficult to maintain.

**Why It Is Important to Wear a Cloth Face Covering**

Cloth face coverings may help prevent people who have COVID-19 from spreading the virus to others. Wearing a cloth face covering will help protect people around you, including those at higher risk of severe illness from COVID-19 and workers who frequently come into close contact with other people (e.g., in stores and restaurants). Cloth face coverings are most likely to reduce the spread of COVID-19 when they are widely used by people in public settings. The spread of COVID-19 can be reduced when cloth face coverings are used along with other preventative measures, including social distancing, frequent handwashing, and cleaning and disinfecting frequently touched surfaces.

**On June 19, 2020, Governor Newsom ordered that all Californians are required to wear a mask under the following conditions:**

- Inside of, or in line to enter, any indoor public space;
- Obtaining services from the healthcare sector in settings including, but not limited to, a hospital, pharmacy, medical clinic, laboratory, physician or dental office, veterinary clinic, or blood bank;
- Waiting for or riding on public transportation or paratransit or while in a taxi, private car service, or ride-sharing vehicle;

*Rio School District | Educating Students for the 21st Century*
• Engaged in work, whether at the workplace or performing work off-site, when:
  o Interacting in-person with any member of the public;
  o Working in any space visited by members of the public, regardless of whether anyone from the public is present at the time;
  o Working in any space where food is prepared or packaged for sale or distribution to others;
  o Working in or walking through common areas, such as hallways, stairways, elevators, and parking facilities;
  o In any room or enclosed area where other people (except for members of the person’s own household or residence) are present when unable to physically distance.
• Driving or operating any public transportation or paratransit vehicle, taxi, or private car service or ride-sharing vehicle when passengers are present. When no passengers are present, face coverings are strongly recommended.
• While outdoors in public spaces when maintaining a physical distance of 6 feet from persons who are not members of the same household or residence is not feasible.

All employees and guests are expected to wear a face mask and/or covering as follows:

• Upon entry and exit of the school site office building and any other district property;
• Interacting in-person with any other employee or member of the public;
• Inside the school site office and any other district property when walking through common areas, such as hallways, stairways, bathrooms, and elevators;
• In any room or enclosed area where other people are present when unable to physically distance;

Exceptions to wearing a mask and/or face covering:

• When an employee is working alone at a self-contained workstation (i.e., cubicle) and/or office, the employee may choose to not wear their mask and/or face covering, however it is recommended the employee immediately put it on when interacting with another employee or member of the public who is within 6 feet of distance of their individual workstation and/or office;

Employee Expectations for Social (Physical) Distancing:

Limiting face-to-face contact with others is the best way to reduce the spread of coronavirus disease 2019 (COVID-19).

Social distancing, also called “physical distancing,” means keeping space between yourself and other people outside of your home.

In addition to everyday steps to prevent COVID-19, keeping space between you and others is one of the best tools we have to avoid being exposed to this virus and slowing its spread locally and across the country and world.

To practice social or physical distancing stay at least 6 feet (about 2 arms’ length) from each other and members of the public who you are working with.

Rio School District | Educating Students for the 21st Century
Limit close contact with others outside your household in indoor and outdoor spaces. Since people can spread the virus before they know they are sick, it is important to stay away from others when possible, even if you—or they—have no symptoms. Social distancing is especially important for people who are at higher risk for severe illness from COVID-19.

Healthy Hygiene Practices/Preventative Measures and Recommendations:

Handwashing is the single most effective infection control intervention (CDC). Handwashing mechanically removes pathogens, while laboratory data demonstrate that 60% ethyl alcohol, the active ingredients in CDC-recommended fragrance free alcohol-based hand sanitizers, inactivates viruses that are genetically related to, and with similar physical properties as, COVID-19. Hand hygiene is performed by washing hands with soap and water for at least 20 seconds or using hand rub with 60% ethyl alcohol content until the content dries. If hands are visibly soiled, use soap and water.

Employees and guests are encouraged to wash their hands or use 60% ethyl fragrance free hand sanitizer often:

1. After blowing your nose, coughing, or sneezing.
2. After using the restroom.
3. Before eating or preparing food.
4. Before and after touching your face.
5. After contact with animals or pets and playing outside.
6. Before and after providing routine care for another person who needs assistance (e.g., a child).
7. Before putting on and after removing gloves.
8. After touching frequently touched areas (e.g., door knobs, handrails, shared computers)
9. Individuals providing health care services should perform hand hygiene before and after contact with each patient, contact with potentially infectious material, and before putting on and after removing PPE, including gloves. Hand hygiene after removing PPE is particularly important to remove any pathogens that might have been transferred to bare hands during the removal process.

Included in this letter are educational materials related to COVID-19 including promoting healthy hygiene and preventative measures provided by the CDC.

The staff lounge and/or break rooms and all conference rooms will be closed for meetings. Outdoor picnic tables may be utilizes while adhering to physical distancing guidelines.

We realize these are unprecedented and trying times. We appreciate your efforts to reduce the spread of COVID19.

If you have any questions regarding any of this information, please do not hesitate to contact an administrator at any of our school campuses or district offices.

Be well
Pandemic outbreaks can have several cycles or waves so this list may need to be repeated. Pandemic outbreaks can occur quickly and multiple measures may need to be implement at once.

### Mitigation and Prevention

#### Communication Plan:
- Coordinate messaging with Ventura County Public Health (VCPH) based on current events and preventative recommendations.
- Disseminate information to school staff about best hygiene practices (cover your cough & handwashing). Educational tools: [CDC School Education and Prevention Messages](https://www.cdc.gov/coronavirus/2019-ncov/community/schools-universities/education-prevention-messages.html). Teachers will provide instruction about hand washing, cover your cough, and social distancing.
- Messaging to parents (ie: letters, all-call, school website, email, Facebook, Twitter) on universal preventative illness measures and to keep child home when sick.

#### Universal Precautions:
- Inventory personal protective equipment (gloves, surgical/procedure masks, gowns). Order and distribute supplies as necessary.
  - Face masks are most useful for preventing disease spread when they are worn by people who have symptoms. This is why people are asked to wear a mask at doctor’s offices if they are coughing or sneezing (CDPH 2020).
- Review school illness policy for sending symptomatic students home and the use of a mask for ill students.
- Review cleaning guidelines and ensure desks and tables are cleaned appropriately with soap and water. Disinfectants may be used based on school cleaning policies and CDC recommendations.

#### Strategic Planning Team & Pandemic Outbreak Plan:
- Relevant school staff (administrator, teacher, school nurse, food services, and parent representative) will meet to articulate strategic priorities and oversee the development of the district’s operational pandemic plan. This will include reviewing current Public Health recommendations, parent sample letter alignment, health office practices, and cleaning procedures.
- Determine standard surveillance reporting process. This would be coordinated through Ventura County Office of Education (VCOE) and VCPH and disseminated to districts on how, when, and what information would be collected and submitted, should attendance surveillance become necessary.
- Monitor attendance rates weekly, looking at classroom, grade-level, and school site attendance.
- Begin implementation and review non-pharmaceutical interventions (NPI). [Table 1 & Table 2]

<table>

<tr>
<th>Response: Probable and/or active cases in the community</th>
</tr>

**Communication Plan:**
- Messaging to parents of any ill contacts (school or community), coordinated efforts with VCPH of closely monitoring the situation, and the school’s decision to remain open. Always provide information on universal precautions, social distancing, symptoms of illness, and when to stay home if sick.
- Monitor VCPH, VCOE, CDC, and CDPH communications and coordinate messaging for parent communication and any press release.

**Surveillance and Reporting:**
- Monitor attendance weekly or daily, if warranted by sudden absences. Notify Ventura County Public Health at 805-981-5201 that normal attendance rates at school site has dropped more than 10%. If absences exceed 10%, request letter from Ventura County Public Health Office: Supporting documentation required for completion of Form J-13-A: Request for Allowance of Attendance due to Emergency Conditions due to material decrease. A *county public health officer letter for any incident involving epidemic-type illness. The letter is to specify that the illness was an epidemic or that there was an increase in the number of cases of a disease above what is normally expected of the population in that area (J13-A). J-13A waiver request.*
- VCPH will provide communication with respect to frequency of attendance surveillance and reporting requirements.

**Strategic Planning Meeting:**
- Review and adapt current plan based on new information, including cleaning measures, health office guidelines for illness, and staffing options due to shortage. Consider closure of non-academic events. [Table 1]
- Plan and identify options for alternative learning options for students during illness, quarantine, or hospitalization.
- Consider altering school environments for individuals with special needs. This includes medically fragile students, pregnant-parenting students, childcare facilities, preschools and any population deemed to be at high risk for complications for pandemic exposure. Some areas to consider would be transportation and surveillance of students in class for symptoms of illness.
- Review attendance rates.
- Collaborate with key community stakeholders (i.e.: VCPH, transportation, food services, after-school programs, pre-school programs, and itinerate/contracted positions).
- Review and adapt current plan based on surveillance data.
- Collaborate with key community stakeholders (i.e.: VCPH, transportation, food services, after-school programs, pre-school programs and itinerate/contracted positions).
School Closures

Communication Plan:
- Messaging to parents and staff would be coordinated with VCPH (i.e.: letters, all-call, school website, email, Facebook, Twitter)
- Press release, as advised by VCPH and LEA.

Surveillance and Reporting:
- Plan and identify options for alternative learning options for students during illness, quarantine, or hospitalization.
- Request letter from Ventura County Public Health Office: Supporting documentation required for completion of Form J-13 A- Request for Allowance of Attendance due to Emergency Conditions due to materials decrease.

Strategic Planning Meeting:
- Determine type of school closure intervention (preventive, reactive, complete closure, student dismissal, or selective) that is warranted, based on active cases in your school or community and VCPH input. See definitions.
- Review next steps for re-entry, cleaning, staffing, transportation, food, and State reporting requirements.
- If schools remain open, (student dismissal or selective) consider cancellation of all non-academic events.
- Collaborate with key community stakeholders (i.e.: VCPH, transportation, food services, after-school programs, pre-school programs and itinerate/contracted positions).

Recovery

Communication Plan:
- If schools were closed, VCPH and school will issue a combined press release message to the public.
- Messaging to parents (i.e: letters, all-call, school website, email, Facebook, Twitter) on return to school, symptoms of illness, and criteria or procedure to be cleared to return to school after illness. Coordinate return to school criteria procedure with VCPH to prevent reoccurrence.

Strategic Planning Team & Pandemic- Outbreak Plan Revisit:
- Review Operational Pandemic Plan actions. Revise any documents. Identify successful processes and challenges.
- Collaborate with key stakeholders on successes and challenges during the outbreak.
- Schedule periodic meetings to review and update plan with key stakeholders.
- **Isolation**: separates person with ill symptoms from others who are not sick.
- **Non-pharmaceutical interventions (NPIs)**: Strategies to slow the spread of illnesses, such as, use of personal protective measures (handwashing, cover your cough, staying at home when ill), environmental surface measures, and social distancing.
- **Proactive school closure**: Closure of school before any pandemic infection transmission among students or staff is identified.
- **Reactive school closure**: Closure of school in response to one or more cases of identified pandemic illness of staff or students in the school.
- **School closure**: Closing a school and sending all the students and staff members home.
- **School dismissal**: School would stay open for staff members while the students stay home.
- **Social distancing**: Measures to reduce transmission by decreasing the frequency and duration of social contact amount persons of all ages by limiting face-to-face contact, which reduces person-to-person transmission.
- **Triggering threshold**: The minimal number or percentage of identified infectious cases in a school or community request to consider reactive school closures.
- **Quarantine**: separates and restricts the movement of persons who are reasonably believed to have been exposed but are not symptomatic.
Social Distancing

Social distancing involves measures that reduce opportunities for person-to-person virus transmission that can help delay the spread and slow the exponential growth of a pandemic during severe, very severe, or extreme pandemics while minimizing the secondary consequences of the measures. Social distancing measures can be implemented in a range of community settings, including educational facilities, workplaces, and public places where people gather (e.g., parks, religious institutions, theaters, and sports arenas). The choice of social distancing measure depends on the severity of the pandemic. Social distancing measures include the following:

- Closure of schools or work environments.
- Lessening the contact between individuals through cancelation of non-academic events.
- If schools remain open during a pandemic, divide school classes into smaller groups of students and rearrange desks so students are spaced at least 3 feet from each other in a classroom. This applies to apparently healthy persons without symptoms. In the event of a very severe or extreme pandemic, this recommended minimal distance between people might be increased.
- Persons in community settings who show symptoms consistent with cold or flu and who might be infected with pandemic illness should be separated from well persons as soon as practical, be sent home, and practice voluntary home isolation.
- Modify, postpone, or cancel mass gatherings.

What is difference between proactive, reactive, and selective school closures or school dismissal?

**Proactive school closure** is when a school closes before any pandemic infection transmission among students or staff is positively identified. Proactive school closures should be done based on current evidence of community pandemic illness and coordinated with Ventura County Public Health before closing any school. [Tables 1 & 2]

**Reactive school closures** are done in response to one or more cases of identified pandemic illness of staff or students in the school. Closure could also be necessitated by positive cases in the community. The length of the closure should be coordinated with VCPH and based on current outbreak information.

**Selective school closure** involves closing schools for high risk individuals, such as Cal-SAFE programs, schools for individuals who are medically fragile, or any student deemed to be at-risk for this particular pandemic (childcare or pre-school).

**School closure** involves closing a school and sending all the students and staff members home. This would include canceling all non-academic events, after-school care, and nutrition services. This should only be considered to slow the peak pandemic outbreak in the community or as a result of a high incidence of cases in the school.

**School dismissal** involves sending all students home but keeping the facilities open and staff on-site. Open school facilities allow teachers and staff to develop and deliver lessons and materials, provide services and help with additional response efforts, and maintain an open safe space for the appropriate supervision of students. If students can come to campus, strict social distancing must be exercised.

Any school closures and dismissals should be coupled with social distancing measures (e.g., cancelling sporting events and other mass gatherings) to reduce out of school social contact among children when schools are closed.
