BP 5121 Students

Grades/Evaluation Of Student Achievement

The Board of Trustees believes that grades serve a valuable instructional purpose by helping students and parents/guardians identify the student's areas of strength and those areas needing improvement. Parents/guardians and students have the right to receive course grades that represent an accurate evaluation of the student's achievement.

(cf. 5020 - Parent Rights and Responsibilities)

The teacher of each course shall determine the student's grade. The grade assigned by the teacher shall not be changed by the Board or the Superintendent except as provided by law, Board policy and administrative regulation. (Education Code 49060)

(cf. 5125.3 - Challenging Student Records)

Teachers shall evaluate a student's work in relation to standards which apply to all students at his/her grade level. The Superintendent or designee shall establish and regularly evaluate a uniform grading system, and principals shall ensure that student grades conform to this system. Teachers shall inform students and parents/guardians how student achievement will be evaluated in the classroom.

(cf. 6011 - Academic Standards)

(cf. 6020 - Parent Involvement)

Grades should be based on impartial, consistent observation of the quality of the student's work and his/her mastery of course content and objectives. Students shall have the opportunity to demonstrate this mastery through a variety of methods such as classroom participation, homework, tests and portfolios.

When reporting student grades to parents/guardians, teachers may add narrative descriptions, observational notes and/or samples of classroom work in order to better describe student progress in specific skills and subcategories of achievement.

Students in grades K-3 shall receive narrative evaluations rather than letter grades in order to give parents/guardians more information about their children's developmental levels and also promote students' self-esteem and experiences of success.

(cf. 5125 - Student Records)

In the event that school closures caused by the COVID-19 pandemic result in a substantial interruption and/or alternative methods of instruction, students in the elementary grades shall receive clear and meaningful teacher feedback on report cards, using strengths-based narratives in place of marks for the
affected grading cycles. Students in grades 6, 7 and 8 will be evaluated under an A/B/C/Incomplete/No Credit grading system. Students who complete work at a level equivalent to C- or higher shall receive a mark of A, B, or C and shall receive credit. Students who complete work at a level that is lower than a C- and whose work is incomplete due to illness or other excused absence shall receive a mark of "Incomplete" and shall have up to six weeks to make up any incomplete work to earn a mark of A, B, or C and receive credit for the course. Students who complete work at a level that is lower than a C- and whose work is not incomplete due to illness or other excused absence shall receive a mark of "No Credit," and shall not receive credit for that course. Any student given a mark of "No Credit" will have any COVID-19 related extenuating circumstances taken into account and will be given the opportunity to earn credit for the course in the future. Impacted documentation will be temporarily adjusted, as appropriate, in order to best reflect this grading flexibility.

Unexcused Absences

If a student misses class without an excuse and does not subsequently turn in homework, take a test or fulfill another class requirement which he/she missed, the teacher may lower the student's grade for nonperformance.

(cf. 6154 - Homework/Makeup Work)

Grade Point Average (GPA)

The Superintendent or designee shall recommend to the Board the methodology to be used in calculating students' grade point averages.

Educational For English Learners  
BP 6174

There are many programs and services to help students who do not speak, read, write or understand English well as a result of English not being their home language. The overall goal of the various programs is to improve the English language skills of English Learner students, Immigrant students, Migratory students and provide information to their parents about services available.

Current Education for English Learners Board Policy 6174 contains outdated legal requirements for reclassification criteria which does not comply with all current Ed Code.

This revised policy meets the California Department of Education requirements and updates district policy to meet reclassified criteria set forth in California EC Section 313 and Title 5 California Code of Regulations Section 11303.

Board Policy

Education For English Learners

BP 6174

Instruction

Pursuant to Education Code 42238.02 and 42238.03, the local control funding formula provides additional funding based on the number and concentration of unduplicated counts of students who are English learners, foster youth, and/or eligible for free or reduced-price meals. Such funds must be used to increase or improve services for unduplicated students at least in proportion to the increase in funds apportioned on the basis of the number or concentration of unduplicated students; see BP 3100 - Budget.

In addition, 20 USC 6801-7014 (Title III) provides grant funds that may be used to supplement, but not supplant, funding from other sources for the purpose of ensuring that English learners attain English proficiency and meet the same challenging academic standards that are applicable to all students. During the Federal Program Monitoring (FPM) process, California Department of Education (CDE) staff will expect to see evidence that the district has complied with state and federal requirements. See CDE's web site for FPM compliance monitoring instruments.

For further information regarding English learners, programs, and services, see CDE's publication The California English Learner Roadmap: Strengthening Comprehensive Educational Policies, Programs and Practices for English Learners, available on its web site.

The Governing Board intends to provide English learners with challenging curriculum and instruction that maximize the attainment of high levels of proficiency in English, advance multilingual capabilities, and facilitate student achievement in the district's regular course of study.

Pursuant to Education Code 60811, in November 2012 the State Board of Education (SBE) adopted state academic content standards for English language development (ELD), aligned with the California Common Core State Standards for English language arts, for students whose primary language is a language other than English. In July 2014, the SBE adopted the English Language Arts/English Language Development Framework aligned to those standards. A supplementary resource, Integrating the CA ELD Standards into K-12 Mathematics and Science Teaching and Learning, specifies the correspondence between the state ELD standards and the California Common Core State Standards for mathematics and the Next Generation Science Standards. CDE's Roadmap encourages differentiated instruction and curriculum which are integrated across all subject areas and emphasize inquiry-based learning and critical thinking skills.

English learners shall be provided differentiated English language development instruction which is targeted to their English proficiency level. Such instruction shall be based on sound instructional theory, be aligned with state content standards, emphasize inquiry-based learning
and critical thinking skills, and be integrated across all subject areas.

(cf. 6011 - Academic Standards)
(cf. 6141 - Curriculum Development and Evaluation)
(cf. 6161.1 - Selection and Evaluation of Instructional Materials)
(cf. 6161.11 - Supplementary Instructional Materials)
(cf. 6171 - Title I Programs)

The following items are for use by districts that maintain middle schools and may be revised to reflect the grade levels offered by the district. Education Code 60811.8, as added by AB 2735 (Ch. 304, Statutes of 2018), prohibits districts from denying any student who is an English learner the opportunity to enroll in core curriculum courses, courses required for middle school promotion, courses required for college admission, or advanced courses, with specified exceptions for recently arrived immigrant students. Pursuant to Education Code 60811.8, this law does not require districts to create supplemental courses in languages other than English.

No middle school student who is an English learner shall be denied enrollment in any of the following: (Education Code 60811.8)
1. Courses in the core curriculum areas of reading/language arts, mathematics, science, and history-social science or courses required for middle school grade promotion

However, an English learner may be denied participation in any such course if the student has been enrolled in a school in the United States for less than 12 months or is enrolled in a program designed to develop the basic English skills of newly arrived immigrant students, and the course of study provided to the student is designed to remedy academic deficits incurred during participation and to enable the student to attain parity of participation in the standard instructional program within a reasonable length of time after the student enters the school system.

2. A full course load of courses specified in item #1 above

3. Other courses that meet the "a-g" course requirements for college admission or are advanced courses such as honors or Advanced Placement courses, on the sole basis of the student's classification as an English learner

(cf. 0415 - Equity)
(cf. 6141.4 - International Baccalaureate Program)
(cf. 6141.5 - Advanced Placement)

Education Code 52060 requires the district's local control and accountability plan (LCAP) to include annual goals and specific actions, aligned to state and local priorities, for all students and for each "numerically significant" student subgroup as defined in Education Code 52052, including English learners; see BP/AR 0460 - Local Control and Accountability Plan. CDE's Roadmap provides an alignment between principles outlined for English learners and the eight state priority areas required in the district's LCAP.
The district shall identify in its local control and accountability plan (LCAP) goals and specific actions and services to enhance student engagement, academic achievement, and other outcomes for English learners.

(cf. 0460 - Local Control and Accountability Plan)
(cf. 3100 - Budget)

Education Code 305 requires the district to solicit input on language acquisition programs as part of the parent/guardian and community engagement process during the development of the LCAP; see section on "Language Acquisition Programs" below. In addition, if district enrollment includes at least 15 percent English learners, with at least 50 students who are English learners, Education Code 52063 requires the establishment of an English learner parent advisory committee to review and comment on the district's LCAP; see the accompanying administrative regulation and BP 0460 - Local Control and Accountability Plan.

The Superintendent or designee shall encourage parent/guardian and community involvement in the development and evaluation of programs for English learners. The Superintendent or designee may also provide an English development literacy training program for parents/guardians and community members so that they may better support students' English language development.

(cf. 0420 - School Plans/Site Councils)
(cf. 1220 - Citizen Advisory Committees)
(cf. 6020 - Parent Involvement)

Staff Qualifications and Training

Commission on Teacher Credentialing (CTC) leaflet CL-622, Serving English Learners, describes requirements pertaining to the qualifications of teachers of English learners. A teacher who is assigned to provide English language development, specially designed academic instruction in English, and/or primary language instruction to English learners must hold an appropriate authorization from CTC; see AR 4112.22 - Staff Teaching English Learners.

The Superintendent or designee shall ensure that all staff employed to teach English learners possess the appropriate authorization from the Commission on Teacher Credentialing. (cf. 4112.22 - Staff Teaching English Learners)

The following paragraph reflects a requirement for districts that receive federal Title III funds to improve the education of English learners, and is recommended for use by all districts. 20 USC 6825 lists the required uses of such funds, including the provision of professional development of sufficient intensity and duration to have a positive and lasting impact on teachers' performance in the classroom. Pursuant to 20 USC 6825, such professional
development must not include one-day or short-term workshops and conferences.

The district shall provide effective professional development to teachers (including teachers in classroom settings that are not the settings of language instruction educational programs), administrators, and other school or community-based organization personnel to improve the instruction and assessment of English learners and enhance staff's ability to understand and use curricula, assessment, and instructional strategies for English learners. Such professional development shall be of sufficient intensity and duration to produce a positive and lasting impact on teachers' performance in the classroom. (20 USC 6825)

(cf. 4131 - Staff Development)
(cf. 4231 - Staff Development)
(cf. 4331 - Staff Development)

CDE's Roadmap indicates the importance of a supportive and collaborative environment in order for teachers to effectively address the complex needs of English learners.

Staff development shall also address the sociocultural needs of English learners and provide opportunities for teachers to engage in supportive, collaborative learning communities.

Identification and Assessment

CDE's Roadmap emphasizes the importance of early identification of English learners, as early childhood is a crucial period of time for language development. Education Code 313 requires any district that has one or more students who are English learners to assess the English language proficiency of those students using the state English Language Proficiency Assessments for California (ELPAC). The ELPAC includes an initial test for identifying students who may be English learners and an annual summative assessment for determining English learners' level of English proficiency and progress in acquiring the skills of listening, speaking, reading, and writing in English. CDE also provides a home language survey to be used to identify students who should be tested for English proficiency. See the accompanying administrative regulation for further information about test administration, identification of English learners, and reclassification criteria.

The Superintendent or designee shall maintain procedures for the early identification of English learners and an assessment of their proficiency using the state's English Language Proficiency Assessments for California (ELPAC). To oversee test administration, the Superintendent or designee shall annually designate a district ELPAC coordinator and a site coordinator for each test site in accordance with 5 CCR 11518.40-11518.45.

Once identified as an English learner, a student shall be annually assessed for language proficiency until the student is reclassified based on criteria specified in the accompanying administrative regulation.

In addition to testing the level of English proficiency of English learners, districts are required
pursuant to Education Code 60640 to administer the California Assessment of Student Performance and Progress (CAASPP) to English learners; see BP/AR 6162.51 - State Academic Achievement Tests. As needed, English learners may be provided with the testing resources (i.e., universal tools, designated supports, and accommodations) specified in 5 CCR 854.1-854.3 during test administration.

CAASPP also includes the optional California Spanish Assessment for students in grades 3-8 and high school, which measures a student's competency in reading, writing, and listening in Spanish.

In addition, English learners' academic achievement in English language arts, mathematics, science, and any additional subject required by law shall be assessed using the California Assessment of Student Performance and Progress. As necessary, the test shall be administered with testing variations in accordance with 5 CCR 854.1-854.3. English learners who are in their first 12 months of attending a school in the United States shall be exempted from taking the English language arts assessment to the extent allowed by federal law. (Education Code 60603, 60640; 5 CCR 854.1-854.3)

(cf. 6162.51 - State Academic Achievement Tests)

The following paragraph is optional. CDE's Roadmap highlights the importance of formative assessments in order to continually adapt methodologies and instruction to meet the needs of English learners.

Formative assessments may be utilized to analyze student performance and appropriately adapt teaching methodologies and instructions.

(cf. 6162.5 - Student Assessment)

Language Acquisition Programs

Education Code 305-310 authorizes parents/guardians to select a language acquisition program that best suits their child. At a minimum, the district must offer a structured English immersion program. It also may offer a dual-language immersion program, transitional and developmental program for English learners, or other language acquisition program as defined in Education Code 306. Pursuant to 20 USC 6312 and 34 CFR 100.3, parents/guardians have a right to decline or opt their child out of a language acquisition program. Also see the accompanying administrative regulation.

The district shall offer research-based language acquisition programs that are designed to ensure English acquisition as rapidly and as effectively as possible and that provide instruction to students on the state-adopted academic content standards, including the English language development standards. (Education Code 306; 5 CCR 11300)

At a minimum, the district shall offer a structured English immersion program which includes designated and integrated English language development. In the structured English immersion program, nearly all of the classroom instruction shall be provided in English, but with the
curriculum and presentation designed for students who are learning English. (Education Code 305-306; 5 CCR 11309)

The Education Code does not define the term "nearly all" for purposes of ensuring that nearly all instruction in the structured English immersion program is provided in English pursuant to Education Code 306. The following paragraph defines "nearly all" as to provide that all classroom instruction be conducted in English except for clarification, explanation, and support as needed. The district could instead establish a minimum percentage of classroom instructional time to be conducted in English or specify the types of courses to be conducted in English and the courses (e.g., science, algebra) to be taught in the student's primary language.

For the purpose of determining the amount of instruction to be conducted in English in the structured English immersion program, "nearly all" means that all classroom instruction shall be conducted in English except for clarification, explanation, and support as needed.

In addition, language acquisition programs offered by the district may include, but are not limited to, the following: (Education Code 305-306)

1. A dual-language immersion program that provides integrated language learning and academic instruction for native speakers of English and native speakers of another language, with the goals of high academic achievement, first and second language proficiency, and cross-cultural understanding (cf. 6142.2 - World Language Instruction)

2. A transitional or developmental program for English learners that provides literacy and academic instruction in English and a student's native language and that enables an English learner to achieve English proficiency and academic mastery of subject matter content and higher order thinking skills, including critical thinking, in order to meet state academic content standards

The following paragraph is for use by districts that maintain any of grades K-3. The district's language acquisition programs for grades K-3 shall comply with class size requirements specified in Education Code 42238.02. (Education Code 310)

(cf. 6151 - Class Size)

In establishing the district's language acquisition programs, the Superintendent or designee shall consult with parents/guardians and the community during the LCAP development process. The Superintendent or designee shall also consult with administrators, teachers, and other personnel with appropriate authorizations and experience in establishing a language acquisition program. (Education Code 305)

At the beginning of each school year or upon a student's enrollment, parents/guardians shall be provided information on the types of language acquisition programs available to students enrolled in the district, including, but not limited to, a description of each program, the process to be followed in making a program selection, identification of any language to be taught in
addition to English when the program includes instruction in another language, and the process to request establishment of a language acquisition program. (Education Code 310; 5 CCR 11310)

(cf. 5145.6 - Parental Notifications)

Pursuant to 5 CCR 11311, districts are required to establish a process with specified components for schools to receive and respond to requests from parents/guardians of enrolled students, and those enrolled for attendance in the next school year, to establish a language acquisition program other than, or in addition to, those already available at the school. See the section "Language Acquisition Programs" in the accompanying administrative regulation.

Whenever a student is identified as an English learner based on the results of the ELPAC, the student's parents/guardians may choose a language acquisition program that best suits their child. To the extent possible, any language acquisition program requested by the parents/guardians of 30 or more students at the school or by the parents/guardians of 20 or more students at any grade level shall be offered by the school. (Education Code 310; 5 CCR 11311)

Reclassification
When an English learner is determined based on state and district reclassification criteria to have acquired a reasonable level of English proficiency pursuant to Education Code 313, the student shall be reclassified per criteria set forth in California EC Section 313 and Title 5 California Code of Regulations Section 11303.

Program Evaluation

The following section may be revised to reflect indicators agreed upon by the Governing Board and Superintendent or designee for measuring the effectiveness of the district's educational program for English learners. Education Code 52061 requires that the annual update of the LCAP include a review of progress toward the goals included in the LCAP, an assessment of the effectiveness of the specific actions described in the LCAP toward achieving the goals, and a description of changes the district will make as a result of this review and assessment.

Pursuant to Education Code 313.2, CDE is required to annually determine the number of students in each district and school who are, or are at risk of becoming, long-term English learners and to report that information to districts and schools. Definitions of "long-term English learner" and "English learner at risk of becoming a long-term English learner" are contained in Education Code 313.1.

20 USC 6311 requires the inclusion of a performance indicator on English language proficiency within the state accountability system under Title I.

To evaluate the effectiveness of the district's educational program for English learners, the Superintendent or designee shall report to the Board, at least annually, regarding:

1. Progress of English learners towards proficiency in English
2. The number and percentage of English learners reclassified as fluent English proficient

3. The number and percentage of English learners who are or are at risk of being classified as long-term English learners in accordance with Education Code 313.1

4. The achievement of English learners on standards-based tests in core curricular areas

5. For any language acquisition program that includes instruction in a language other than English, student achievement in the non-English language in accordance with 5 CCR 11309

6. Progress toward any other goals for English learners identified in the district's LCAP

7. A comparison of current data with data from at least the previous year in regard to items #1-6 above

8. A comparison of data between the different language acquisition programs offered by the district

The Superintendent or designee shall also provide the Board with regular reports from any district or schoolwide English learner advisory committees.

Administrative Regulation

Education For English Learners

AR 6174

Instruction

Definitions

English learner means a student who is age 3-21 years, who is enrolled or is preparing to enroll in an elementary or secondary school, and whose difficulties in speaking, reading, writing, or understanding the English language may be sufficient to deny the student the ability to meet state academic standards, the ability to successfully achieve in classrooms where the language of instruction is English, or the opportunity to participate fully in society. An English learner may include a student who was not born in the United States or whose native language is a language other than English; a student who is Native American or Alaska Native, or a native resident of the outlying areas, who comes from an environment where a language other than English has had a significant impact on the individual's level of English language proficiency; or a student who is migratory, whose native language is a language other than English, and who comes from an environment where a language other than English is dominant. (Education Code 306; 20 USC 7801)

Designated English language development means instruction provided during a time set aside in the regular school day for focused instruction on the state-adopted English language development standards to assist English learners to develop critical English language skills necessary for academic content learning in English. (5 CCR 11300)

Integrated English language development means instruction in which the state-adopted English language development standards are used in tandem with the state-adopted academic content standards. Integrated English language development includes specially designed academic instruction in English. (5 CCR 11300)

Native speaker of English means a student who has learned and used English at home from early childhood and English has been the primary means of concept formation and communication. (Education Code 306)

Identification and Assessments

Education Code 52164.1 and 5 CCR 11307 require the district to administer a home language survey to all enrolled students. A sample home language survey form in English and Spanish is available on the California Department of Education's (CDE) web site.

Upon enrollment in the district, each student's primary language shall be determined through the use of a home language survey. (Education Code 52164.1; 5 CCR 11307, 11518.5) ***Note:
When the home language survey indicates that a student's proficiency in English should be tested, Education Code 313 requires the district to administer a state assessment of English language proficiency. The English Language Proficiency Assessments for California (ELPAC) are used for initial identification of language proficiency and subsequently for annual assessment of language proficiency.

Any student who is identified as having a primary language other than English as determined by the home language survey, and who has not previously been identified as an English learner by a California public school or for whom there is no record of results from an administration of an English language proficiency test, shall be initially assessed for English proficiency using the English Language Proficiency Assessments for California (ELPAC). Prior to administering the ELPAC, the Superintendent or designee shall notify the student's parent/guardian in writing that the student will be administered the initial ELPAC. (Education Code 313, 52164.1; 5 CCR 11518.5)

5 CCR 11518.35 specifies "universal tools" that may be used with all students in ELPAC administration, and "designated supports" and "accommodations" that may be used with students with disabilities when specified in their individualized education program or Section 504 plan.

The Individuals with Disabilities in Education Act (20 USC 1412) requires that students with disabilities be included in all state assessments, including the ELPAC as appropriate. Pursuant to 5 CCR 11518.30, students with the most significant cognitive disabilities who cannot participate in the assessment, even with appropriate accommodations, must be given an alternate assessment of English proficiency. 34 CFR 200.16 provides that, if an English learner with a disability is unable to take the assessment with accommodations, the state accountability system must include the student's score on any part(s) of the test for which it is possible to assess the student (i.e., speaking, reading, listening, writing).

Pursuant to Education Code 56305, CDE has developed a manual, California Practitioners' Guide for Educating English Learners with Disabilities, which provides guidance on identifying, assessing, supporting, and reclassifying English learners with disabilities.

Administration of the ELPAC, including the use of variations and accommodations in test administration when authorized, shall be conducted in accordance with test publisher instructions and 5 CCR 11518.5-11518.35.

(cf. 6159 - Individualized Education Program)
(cf. 6162.51 - State Academic Achievement Tests)
(cf. 6164.6 - Identification and Education Under Section 504)

The remainder of this section specifies notifications that must be sent to parents/guardians regarding assessment results and available programs for English learners. CDE has developed sample notification letters, available on its web site in multiple translations, to notify parents/guardians of the initial identification of a student as an English learner or as initially
fluent English proficient and to notify them of the results of an annual assessment.

Pursuant to Education Code 48985, when 15 percent or more of students enrolled in a school speak a single primary language other than English, all notices and reports sent to their parents/guardians must be written in English and in the primary language and may be answered by the parent/guardian in either language.

Based on the initial assessment, the student shall be classified either as initially fluent in English proficient or as an English learner. The Superintendent or designee shall notify the student's parent/guardian, in writing, of the results of the ELPAC initial assessment within 30 calendar days after the student's date of initial enrollment, or, if administered prior to the student's initial date of enrollment, up to 60 calendar days prior to such enrollment, but not before July 1 of the school year of the student's initial enrollment. The notice shall indicate whether the student met the ELPAC initial assessment criterion for proficiency and include the district's contact information for use if the parent/guardian has questions or concerns regarding the student's classification. (5 CCR 11518.5)

Each year after a student is identified as an English learner and until the student is redesignated as English proficient, the summative assessment of the ELPAC shall be administered to the student during a four-month period after January 1 as determined by the California Department of Education. (Education Code 313)

The Superintendent or designee shall notify parents/guardians of their child's results on the summative assessment of the ELPAC within 30 calendar days following receipt of the results from the test contractor or, if the results are received from the test contractor after the last day of instruction for the school year, within 15 working days of the start of the next school year. (Education Code 52164.1; 5 CCR 11518.15)
(cf. 5145.6 - Parental Notifications)

The following paragraph is for use by districts that receive federal funds under either Title I or Title III for services to English learners, and may be adapted for use by other districts. Pursuant to Education Code 440 and 20 USC 6312, districts receiving Title I or Title III funds are required to provide parents/guardians with notification of their child's identification as an English learner and placement in a language acquisition program.

The parent/guardian of a student participating in, or identified for participation in, a language instruction program supported by federal Title I or Title III funds shall receive notification of the assessment of the student's English proficiency. Such notice shall be provided not later than 30 calendar days after the beginning of the school year or, if the student is identified for program participation during the school year, within two weeks of the student's placement in the program. The notice shall include all of the following: (Education Code 313.2, 440; 20 USC 6312)

1. The reason for the identification of the student as an English learner and the need for placement in a language acquisition program

2. The level of English proficiency, how the level was assessed, and the status of the
student's academic achievement

3. A description of the language acquisition program in which the student is, or will be, participating, including a description of all of the following:

a. The methods of instruction used in the program and in other available programs, including how such programs differ in content, instructional goals, and the use of English and a native language in instruction

b. The manner in which the program will meet the educational strengths and needs of the student

c. The manner in which the program will help the student develop English proficiency and meet age-appropriate academic standards for grade promotion and graduation

d. The specific exit requirements for the program, the expected rate of transition from the program into classes not tailored for English learners, and the expected rate of graduation from secondary school if applicable

e. When the student has been identified for special education, the manner in which the program meets the requirements of the student's IEP

Education Code 313.2 requires that the notice contain information in regard to (1) whether the student is a long-term English learner, or English learner at risk of becoming a long-term English learner, and (2) the manner in which the program for English language development instruction will meet the educational strengths and needs of such students and help them develop English proficiency and achieve academic standards. Districts may send an alternate notice if the definitions of long-term English learners and those at risk of becoming long-term English learners used by the district are broader than those defined in Education Code 313.1, the notice states that the definitions utilized by the district are broader, and the notice contains the information specified in item #4 below.

4. As applicable, the identification of a student as a long-term English learner or at risk of becoming a long-term English learner, as defined in Education Code 313.1, and the manner in which the program for English language development instruction will meet the educational strengths and needs of such students and help such students develop English proficiency and meet age-appropriate academic standards

5. Information about the parent/guardian's right to have the student immediately removed from a program upon the parent/guardian's request

6. Information regarding a parent/guardian's option to decline to enroll the student in the program or to choose another program or method of instruction, if available

7. Information designed to assist a parent/guardian in selecting among available programs, if
more than one program or method is offered
Language Acquisition Programs

Pursuant to 5 CCR 11311, districts are required to establish a process for schools to receive and respond to requests from parents/guardians of enrolled students, and those enrolled for attendance in the next school year, to establish a language acquisition program other than, or in addition to, those already available at the school. Each school is required to follow the process even when the district provides the language acquisition program at another school site. The following section includes the components of the process required by 5 CCR 11311 and may be expanded to reflect district practice.

Whenever parents/guardians of enrolled students, and those enrolled for attendance in the next school year, request that the district establish a specific language acquisition program in accordance with Education Code 310, such requests shall be addressed through the following process: (5 CCR 11311)

1. The school shall make a written record of each request, including any request submitted verbally, that includes the date of the request, the names of the parent/guardian and student making the request, a general description of the request, and the student's grade level on the date of the request. As needed, the school shall assist the parent/guardian in clarifying the request. All requests shall be maintained for at least three years from the date of the request.

2. The school shall monitor requests on a regular basis and notify the Superintendent or designee when the parents/guardians of at least 30 students enrolled in the school, or at least 20 students in the same grade level, request the same or a substantially similar type of language acquisition program. If the requests are for a multilingual program model, the district shall consider requests from parents/guardians of students enrolled in the school who are native English speakers in determining whether this threshold is reached.

3. If the number of parents/guardians described in item #2 is attained, the Superintendent or designee shall:

   a. Within 10 days of reaching the threshold, notify the parents/guardians of students attending the school, the school's teachers, administrators, and the district's English learner parent advisory committee and parent advisory committee, in writing, of the requests for a language acquisition program

   b. Identify costs and resources necessary to implement any new language acquisition program, including, but not limited to, certificated teachers with the appropriate authorizations, necessary instructional materials, pertinent professional development for the proposed program, and opportunities for parent/guardian and community engagement to support the proposed program goals

   c. Within 60 calendar days of reaching the threshold number of parents/guardians described in item #2 above, determine whether it is possible to implement the requested language acquisition program and provide written notice of the determination to parents/guardians of students
attending the school, the school's teachers, and administrators

d. If a determination is made to implement the language acquisition program, create and publish a reasonable timeline of actions necessary to implement the program. If a determination is made that it is not possible to implement the program, provide a written explanation of the reason(s) the program cannot be provided.

The district shall notify parents/guardians at the beginning of each school year or upon the student's enrollment regarding the process to request a language acquisition program, including a dual-language immersion program, for their child. The notice shall also include the following: (5 CCR 11309, 11310)

1. A description of the programs provided, including structured English immersion

2. Identification of any language to be taught in addition to English when the program includes instruction in a language other than English

3. The manner in which the program is designed using evidence-based research and includes both designated and integrated English language development

4. The manner in which the district has allocated sufficient resources to effectively implement the program, including, but not limited to, certificated teachers with the appropriate authorizations, necessary instructional materials, pertinent professional development, and opportunities for parent/guardian and community engagement to support the program goals

5. The manner in which the program will, within a reasonable period of time, lead to language proficiency and achievement of the state-adopted content standards in English and, when the program includes instruction in another language, in that other language

6. The process to request establishment of a language acquisition program not offered at the school

7. For any dual-language immersion program offered, the specific languages to be taught. The notice also may include the program goals, methodology used, and evidence of the proposed program's effectiveness.

The district shall provide additional and appropriate educational services to English learners for the purposes of overcoming language barriers and academic deficits in other areas of the core curriculum. (5 CCR 11302)

Reclassification/Redesignation

English learners shall be reclassified as fluent English proficient when they are able to comprehend, speak, read, and write English well enough to receive instruction in an English language mainstream classroom and make academic progress at a level substantially equivalent
to that of students of the same age or grade whose primary language is English and who are in the regular course of study.

Education Code 313 and 5 CCR 11303 require that the district's reclassification process include, at a minimum, the criteria specified in items #1-4 below. Additional guidance is available on CDE's web site. The district may expand the following list to reflect any additional criteria it has established.

The procedures used to determine whether an English learner shall be reclassified as fluent English proficient shall include, but not be limited to: (Education Code 313, 5 CCR 11303)

1. Assessment of English language proficiency using an objective assessment instrument, including, but not limited to, the ELPAC

   • ELPAC criteria-Overall Level 4 Well Developed Language

Pursuant to Education Code 313.3, CDE is required to develop, by June 30, 2020, a standardized teacher observation protocol for use in evaluating a student's English language proficiency, as required by item #2 below, as well as professional development tools to train teachers on the use of the protocol.

2. Participation of the student's classroom teacher and any other certificated staff with direct responsibility for teaching or placement decisions related to the student

   1-5: Progressing towards meeting grade level benchmarks
   6-8: 2.0 grade average in core subjects with no Fs OR the teacher(s) provides input based on other classroom indicators that show the student meets the academic performance criteria (EL Coordinator, teacher, administrator, counselor meet to discuss classroom indicators).

3. Parent/guardian involvement, including:

   a. Notice to parents/guardians of language reclassification and placement, including a description of the reclassification process and the parent/guardian's opportunity to participate

   b. Encouragement of parent/guardian participation in the district's reclassification procedure, including seeking parent/guardian opinion and consultation during the reclassification process

Pursuant to Education Code 313, the fourth criterion requires comparison of student performance on an objective assessment of basic skills that provides an empirically established range of performance of English proficient students of the same age. A letter from CDE to district superintendents (Reclassification Guidance for 2017-18) dated April 28, 2017 clarifies that the Smarter Balanced Summative Assessment may be used as a local measure of the fourth criterion, or districts may select another local assessment. CDE correspondence, which is available on its web site, provides examples of appropriate measures.
4. Student performance on an objective assessment of basic skills in English that shows whether the student is performing at or near grade level

A comparison of student performance on an objective assessment of basic skills in English language arts. The assessment results must have an empirically established range of performance in basic skills based on the performance of English proficient students of the same age. Rio Criteria (approved by the School Board) is a 3 or 4 on CAASPP ELA.

*Fall 2020-2021- The 2018-2019 ELA CAASPP scores may be used for Reclassification.*

The student's language proficiency assessments, the participants in the reclassification process, and any decisions regarding reclassification shall be retained in the student's permanent record. (5 CCR 11305)
(cf. 5125 - Student Records)

The Superintendent or designee shall monitor the progress of reclassified students to ensure their correct classification and placement. (5 CCR 11304)

Pursuant to 20 USC 6841, districts receiving federal Title III funding are required to report to CDE the number and percentage of English learners, including English learners with a disability, meeting state academic standards for each of four years after they are no longer receiving services under Title III. In the Federal Program Monitoring process, CDE reviews whether the district monitors the progress of reclassified students for a minimum of four years to ensure correct classification and placement of reclassified students and the provision of additional academic support as needed. Districts that do not receive Title III funding may revise the following paragraph to reflect district practice.

The Superintendent or designee shall monitor students for at least four years following their reclassification to ensure correct classification and placement and to determine whether any additional academic support is needed.

Advisory Committees

Pursuant to 5 CCR 11308, an advisory committee on programs and services for English learners is required for any district with over 50 English learners and for each school with over 20 English learners. Duties of the advisory committees are specified in Education Code 52176 and 5 CCR 11308.

A school-level English Learner Advisory Committee (ELAC) shall be established when there are more than 20 English learners at the school. Parents/guardians of English learners, elected by parents/guardians of English learners at the school, shall constitute committee membership in at least the same percentage as English learners represent of the total number of students in the school. The school may designate for this purpose an existing school-level advisory committee provided that it meets these criteria for committee membership. (Education Code 52176; 5 CCR
The ELAC shall be responsible for assisting in the development of a schoolwide needs assessment, recommending ways to make parents/guardians aware of the importance of school attendance, and advising the principal and school staff in the development of a detailed master plan for English learners for the individual school and submitting the plan to the Governing Board for consideration for inclusion in the district master plan. (Education Code 52176)

Pursuant to 5 CCR 11308, each school-level English Learning Advisory Committee (ELAC) is entitled to elect at least one member to the District English Learner Advisory Committee (DELAC). If there are more than 30 ELACs in the district, the district may use a system of proportional or regional representation. The following paragraph may be revised to reflect district practice.

When the district has more than 50 English learners, the Superintendent or designee shall establish a District English Learner Advisory Committee (DELAC), the majority of whose membership shall be composed of parents/guardians of English learners who are not employed by the district. Alternatively, the district may use a subcommittee of an existing districtwide advisory committee on which parents/guardians of English learners have membership in at least the same percentage as English learners represent of the total number of students in the district. (Education Code 52176)

5 CCR 11308 delineates the duties of the DELAC, as provided below. The list of DELAC duties on CDE's web site omits item #5, administration of the annual language census.

The DELAC shall advise the Board on at least the following tasks: (5 CCR 11308)

1. Developing a district master plan for education programs and services for English learners, taking into consideration the school site plans for English learners

2. Conducting a districtwide needs assessment on a school-by-school basis

3. Establishing a district program, goals, and objectives for programs and services for English learners
4. Developing a plan to ensure compliance with applicable teacher or instructional aide requirements

5. Administering the annual language census

6. Reviewing and commenting on the district's reclassification procedures 7.

Reviewing and commenting on the required written parental notifications

(cf. 0420 - School Plans/Site Councils)
(cf. 1220 - Citizen Advisory Committees)
(cf. 5020 - Parent Rights and Responsibilities)
(cf. 6020 - Parent Involvement)

In order to assist the advisory committee in carrying out its responsibilities, the Superintendent or designee shall ensure that committee members receive appropriate training and materials. This training shall be planned in full consultation with the members. (5 CCR 11308)

LCAP Advisory Committee

The following section is applicable if the district's student enrollment includes at least 15 percent English learners, with at least 50 students who are English learners. Education Code 52063 requires that such districts establish an English learner parent advisory committee to review and comment on the district's local control and accountability plan; see BP 0460 - Local Control and Accountability Plan. 5 CCR 15495 requires this committee to include a majority of parents/guardians of English learners.

MEMORANDUM OF UNDERSTANDING
BETWEEN
RIO SCHOOL DISTRICT (RSD) AND
RIO TEACHERS ASSOCIATION (RTA)

REGARDING THE COVID-19 PANDEMIC AND SCHOOL RE-OPENING DURING THE 2020-2021 SCHOOL YEAR.

As of December 16, 2020

The Rio School District ("District") and the Rio Teachers Association ("Association"), jointly known as the Parties ("Parties") enter into this Memorandum of Understanding ("MOU") regarding the issues related to the coronavirus COVID-19 and the re-opening of schools using a hybrid instructional model consisting of a combination of distance (virtual) learning, in-person instruction ("Hybrid Program"), and/or-small groups or cohorts of students ("Small Group Instructional Program"). AGREED

As of the date of this MOU, the Parties recognize that the COVID-19 pandemic necessitates significant modifications to the operation of schools to minimize the health risks associated with COVID-19 infection for all students, staff, and their families while also providing equitable access to education for students. AGREED

The Parties recognize the importance of maintaining safe facilities and operations, for the benefit of the students and communities served by the District and its teachers and staff. The Parties recognize the importance of prudent measures to prevent employees, students, their families, or other people using facilities from being exposed to or infected with COVID-19. Consistent with applicable Public Health guidelines, prudent measures shall be taken to identify potential exposure and prevent the spread of the disease. It is in the mutual interest of both parties to address the requirements and recommendations of the California Department of Public Health (CDPH), and Ventura County Health Care Agency (VCHCA) in order to prevent the spread of illness arising from COVID-19. AGREED

This MOU shall supersede any provisions of the Collective Bargaining Agreement or September 30, 2020 MOU between the Parties that are in conflict for the duration of this MOU, or until modified by mutual agreement of the District and the Association. AGREED

The Parties agree to the following:

School Reopening Plan

The District will implement, to the extent possible, a “progressive reopening of schools plan.” The program phase-in shall be consistent with applicable federal, state, and local mandates as well as Board of Education policies and directives, subject to negotiation with the Association to the extent required by law (e.g. Appellate cases, PERB decisions). AGREED

The progressive plan will include a Distance Learning program for all students starting August 31, 2020 that will continue until the date of reopening for the Hybrid Program has been determined. At that time, and if approved to reopen (according to state and local county health guidelines), a Hybrid Program. In addition to the Hybrid Program, the District will commence the Small Group Instructional Program on November 2, 2020. Unit members assigned to begin November 2, 2020 will be provided two days prior to November 2, 2020, where the unit members shall provide a 30-minute synchronous (live) SEL check in with their students and provide the remainder of required daily instructional minutes asynchronously (time value instruction). The remainder of these two days
shall be uninterrupted unit member time for purposes of preparing classrooms for reopening for the Small Group Instructional Program on November 2, 2020. Unit Members shall have access to their classrooms at the beginning of the work day. AGREED

Unit members shall continue to deliver daily instruction via and according to the Distance Learning model until such time it is deemed safe to reopen, unless assigned to the Small Group Instructional Program. AGREED

Unless assigned to the Small Group Instructional, unit members shall provide a 30-minute synchronous (live) SEL check in with their students two days prior to reopening (dates to be determined) for the Hybrid Program and provide the remainder of required daily instructional minutes asynchronously (time value instruction). The remainder of these two days shall be uninterrupted unit member time for purposes of preparing classrooms for reopening. AGREED

The instructional model and program shall be decided by the District and may vary by school site and grade level. If the District determines changes are necessary to the instructional-related provisions in this MOU during its term, it will provide notice to the Association and negotiate the impacts and effects if any. AGREED

1.1. Compensation and Employee Benefits
Unit Members available to work during the term of this MOU shall continue to receive their full compensation and benefits except in circumstances where employees exhaust available leaves pursuant to the collective bargaining agreement applicable provisions of the Federal Families First Coronavirus Response Act (FFCRA – which expires December 31, 2020) and/or any other provisions provided by law. If extracurricular duties can and are performed, Unit Members shall continue to receive stipends and/or additional pay, as provided for under the collective bargaining agreement. AGREED

MEMORANDUM OF UNDERSTANDING REGARDING RETURN IMPACTS AND EFFECTS ON THE CSEA BARGAINING UNIT

This memorandum is agreed between Rio School District (District) and the California School Employees Association and its Rio Chapter #329 (together “CSEA”) concerning the impacts and effects of resumed District operations under COVID-19 conditions.

The District and CSEA recognize the importance of maintaining safe facilities and operations, for the benefit of the students and communities served by the District and its teachers and staff. We recognize the importance of prudent measures to prevent District employees, students, their families, or other people using District facilities from being exposed to or infected with coronavirus. Care should be taken to identify potential exposure and prevent the spread of the disease. We agree that continuity of District operations should be maintained, and provisions should be made for District employees who are impacted by the epidemic.

The District and CSEA recognize that depending upon changes in the public health situation and governmental directives, during part or all of the 2020-21 school year the District might utilize distance learning, or in-person instruction, or different combinations of distance learning and in-person instruction. To facilitate the District’s implementing either distance learning, in-person instruction, or an appropriate hybrid model, this MOU addresses the commitments that would only during the 2020/2021 school year.

To these ends, the District and CSEA agree as follows:

A. Safety:

The District acknowledges its obligation to develop and keep up-to-date a written, worksite-specific COVID-19 prevention plan at every facility (per CDPH guidance) and an infectious disease preparedness and response plan (per OSHA), to perform a comprehensive risk assessment (per CDPH guidance), and to regularly review updated guidance from state agencies, including CDPH and the California Department of Education.

Per CDPH guidance, the District will designate a COVID-19 coordinator for each worksite and inform CSEA of that person’s name and contact information.

The District will provide CSEA with its worksite-specific COVID-19 prevention plans, its infectious disease preparedness and response plan, and its comprehensive risk
assessment, and will immediately provide CSEA with any changes to those documents.

The District will share with CSEA any information it receives or develops regarding safety issues related to COVID-19.

B. Physical Distancing

The District agrees to develop, implement, communicate physical distancing standards in school facilities and vehicles, which may include the following components:

- Maintaining appropriate changes to physical layout to maintain physical distancing.
- Limiting the number of employees and students in campus spaces to the number that can be reasonably accommodated while maintaining a minimum of six feet of space between employees, or current recommended distance.
- The District agrees to develop a plan to minimize access to campus, and limit non-essential visitors, facility use permits, and volunteers.
- As recommended by the current guidelines, create smaller student and staff cohorts to minimize the mixing of student groups throughout the day. Minimize movement of students and staff as much as possible.
- Limiting physical interaction during meal preparation and meal service (e.g. serving meals in classrooms, increasing meal service access points, staggering cafeteria use).
- Physical barriers, such as sneeze guards, plexiglass, and partitions will be installed at sites as appropriate and other areas where maintaining physical distance is difficult or there is a higher likelihood of personal interactions.

C. Personal Protective Equipment

The District agrees to provide other protective equipment, as appropriate for work assignments, including but not limited to as follows:

- For staff engaged in symptom screening: Face masks, face shields, gowns, and disposable gloves
- For front office and food service staff: Face masks and disposable gloves
- For custodial staff: Face masks, gloves appropriate for all cleaning and disinfecting. Appropriate PPE for COVID-19 disinfection (Such as disposable gowns, gloves, eye protection, and face masks or respirators) as required by product instructions.
Any required personal protective equipment, including but not limited to face masks, face shield, disposable gloves will be provided by the District. This protective equipment will comply with CDPH guidance for students and staff appropriate for each classification or duty, relevant to Cal/OSHA requirements.

- The District will notify CSEA if, due to supply issues, it cannot provide adequate PPE, and the parties will promptly negotiate the effects of such shortage, including alternative measures available.

D. Face Coverings

Every person on site, including students and visitors, will be required to wear a face covering in accordance with State health guidelines and orders. The parties recognize that coverings are not a replacement for physical distancing, but they must be used to mitigate virus spread.

Face coverings shall be worn in all walkways, bathrooms, and all common areas or in any indoor or outdoor space where 2 or more people are present and physical distancing is challenging.

E. Hygiene/Hand Washing/Sanitation

The District shall provide information or training for its employees regarding public health measures, hygiene, and sanitation to help prevent the spread of the virus.

- All training will be done during the employees’ work hours or employees will be compensated at their regular rate of pay.

Handwashing locations and hand sanitizer shall be easily accessible at all sites and workstations and employees will have adequate break time to wash hands.

- In the event that any District site loses prolonged (two hours or more) access to water or plumbing, employees will be released to complete duties from home, if feasible as determined by the district, without any loss of pay or benefits.

Adequate site appropriate cleaning supplies will be maintained to continuously disinfect the school sites and District vehicles in accordance with CDPH guidance.
The District agrees to develop and maintain a maximum capacity seating plan for students of each vehicle while meeting six-foot physical distancing objectives.

This plan shall also:

- Ensure that drivers have access to sufficient face coverings to provide to students who board the bus without a face covering.
- Ensure buses have adequate staffing to engage in symptom screenings and physical distancing while the bus is in motion.
- Ensure that drivers have access to sufficient hand sanitizer.

The District agrees to maintain an updated Injury and Illness Prevention Plan (IIPP) to address unique circumstances during COVID-19 pandemic and agrees to make updates accessible to employees and parents.

The District may establish a working group to focus on safety issues related to COVID-19, including issues that arise as District operations evolve and best practices. If such a working group is established, it shall include classified employees appointed by CSEA.

F. Reporting Unsafe Conditions:

In the interest of protecting community and workplace health, any employee may report, in writing, any unsafe condition related to COVID-19 in the working environment to the immediate supervisor. The supervisor shall, within three (3) working days, respond in writing to the employee, with simultaneous copy to CSEA, stating what has been done to make the condition safe or, if no action will be taken, the reason(s) why. This method of resolving safety concerns shall not displace the right to file OSHA or other administrative complaints or to bring a grievance for violation of this agreement.

- If an employee perceives their work assignment presents an immediate or imminent danger to their health or safety, they shall report it to their immediate supervisor. The supervisor will work with Human Resources to determine whether modifications/accommodations to the current work assignment are appropriate. Employees may be directed to complete work under modified conditions pending completion of the review.

G. Screening, Contact Tracing, and Notification
The District agrees to direct all staff and students to engage in “Passive Screening” prior to attending their shift or attending on site instruction (check temperature to ensure temperatures below 99.5 degrees Fahrenheit, check for symptoms outlined by public health officials) and to stay home if they have symptoms consistent with COVID-19 or if they have had close contact with a person diagnosed with COVID-19. Any classified employee who stays home due to symptoms related to COVID-19 must notify the District and their immediate supervisor.

The District agrees to screen employees and visitors to school sites as follows:

- Daily wellness checks at the beginning of each workday, may include temperature reading with a no-touch thermometer and a questionnaire about symptoms. Staff who conduct these checks shall be given appropriate PPE and barriers shall be used to reduce potential exposure during the checks.

If students come to school sites for in-person instruction, the District will screen students as follows:

- Parents will be required to complete the passive screening questionnaire at home each day prior to their student arriving at school.
- Daily visual symptom and wellness checks at the beginning of each school day, including temperature reading with a no-touch thermometer.

Bargaining unit members shall be trained in screening technique prior to screening. Staff will be educated about COVID-19 symptoms and will be instructed on the procedures to address positive identification of symptoms if they occur during the screening process or during the day.

- All training will be done during the employees’ work hours or employees will be compensated at their regular rate of pay.

Records of staff screenings shall be kept in a safe, confidential location, and shall not be disclosed without employee permission except to county public health employees in the course of investigating a case or outbreak of the virus, or in accordance with law.

The District shall have documented plans for testing and contact tracing when any on-site person(s) have tested positive for COVID-19.
The District shall notify bargaining unit employees who have been exposed to COVID-19 at work. The District shall identify individuals who have been in close contact with an infected person, or a person who is suspected to be infected, and take steps to isolate the infected person and close contacts.

The District shall notify CSEA of potential bargaining unit member exposure to COVID-19.

The District shall provide testing at no expense to bargaining unit employees where potential exposure has occurred. The District will provide up to two (2) hours of paid leave for classified employees to be tested for COVID-19.

CSEA agrees to cooperate with the District in any necessary public health actions, such as contact tracing of infected individuals.

The District will develop a plan for when a staff member, student, or visitor is exposed to COVID-19, per CDPH school guidelines. The District will provide that plan and any updates to CSEA and will train staff about the procedures to be followed.

- All training will be done during the employees’ work hours or employees will be compensated at their regular rate of pay.

When the District provides in-person instruction, the District shall provide routine testing of all staff, so that each employee working on-site is tested at least once every two months. If the District is unable to offer such testing, or if the results of such testing are not available within 48 hours or less of test administration, the District will inform CSEA and employees, and shall make its best efforts to obtain timely testing capacity. Testing required by the District shall be provided at no cost to employees or the District may refer the employee to a no cost testing center. The District will provide up to two (2) hours of paid leave for classified employees to be tested for COVID-19.

H. Leave and Accommodations:

HR 6201: The parties recognize that the Federal “Families First Coronavirus Response Act,” also known as HR 6201, provides qualified employees with two weeks of paid leave for coronavirus-related absences, and extends Family Medical Leave Act (FMLA) leave. Specifically, HR 6201 provides as follows:
• 80 hours of paid sick leave for full-time employees (pro rata for part-time) at the employee's regular rate of pay (up to $511 per day and $5,110 in total) if:
  o The employee is subject to a federal, state, or local quarantine or isolation order related to COVID-19;
  o The employee has been advised by a health care provider to self-quarantine because of COVID-19; or
  o The employee is experiencing symptoms of COVID-19 and is seeking a medical diagnosis.
• 80 hours of paid leave for full-time employees (pro rata for part-time) at two-thirds the regular rate of pay (or state minimum wage, whichever is greater) up to $200 per day and $2,000 total if:
  o The employee is caring for an individual subject to an order or advised to self-isolate;
  o The employee is caring for their own child whose school or place of care is closed, or child care provider is unavailable, due to COVID-19 precautions; or
  o The employee is experiencing substantially similar conditions as specified by the Secretary of Health and Human Services, in consultation with the Secretaries of Labor and Treasury (these have not been specified yet).

The parties recognize that such leave as provided by HR 6201 shall be available to all qualified District employees in the appropriate circumstances and shall be drawn prior to any other forms of paid or unpaid leave available to such employees.

The parties further recognize that HR 6201 extends FMLA leave in various ways, including making it available to any employee who has been employed for at least 30 days, making it available to employees unable to work due to the need to care for an employee's minor child if the child's school or place of care has been closed due to a public health emergency, and making it a paid leave at 2/3 pay after the first 10 days. (Those first 10 days would be covered by the 80 hours of paid leave outlined above.)

Once leave is exhausted under HR 6201 and if the employee is unable to return to work, the employee may request to take other contractually entitled leaves. The district will review the request and determine which leaves the employee is qualified and entitled to take if any.

The District may permit intermittent use of HR6201 leave as appropriate.

If an employee is potentially exposed to COVID-19 at work and directed by the District to self-quarantine or is sent home from work due to a screening result or symptoms, the employee if medically able shall work from home with no loss in pay, benefits and no
deduction of leaves. If there are no duties that can be performed remotely, the District shall work with the employee, on an individualized basis, to develop a plan to cover their absence utilizing their contractually available leaves.

Employees who have exhausted all paid leave and must be absent due to coronavirus, including to care for family or household members or to meet a childcare emergency, shall be permitted to request unpaid leave.

Workers' Compensation: The District shall follow all provisions of SB1159.

Accommodation of High-Risk Individuals: The parties recognize that some bargaining-unit employees are at higher risk of severe illness from novel coronavirus due to existing medical conditions or age. On an individualized basis, and utilizing the interactive process, the District agrees explore reasonable accommodations such as, but not limited to, telework, negotiated change in classification or duties, and voluntary/temporary site reassignment if mutually agreed upon by all parties. If reasonable accommodations would cause an undue hardship for the District, the District shall work with the employee as appropriate to develop a plan to cover their absence utilizing their contractually available leaves.

Accommodation for Dependent Care: If bargaining-unit employees do not have access to their normal childcare due to the coronavirus epidemic and related program and school closures, then the District shall work with employees on an individualized, to determine if any of the following options are available:

- Telework, negotiated change in classification or duties, and shifting resources of staff across sites;
- Allow employees to utilize any leave provisions they may be entitled to under the contract and State and Federal laws;
- The District shall work with the employee on an individualized basis, to develop a plan to cover their absence utilizing their contractually available leaves.

I. Remote Work:

The District understands that unit members may have extenuating circumstances that may require a modification of their work setting. The District shall consider these requests on a case-by-case basis. During this time, unit members shall work from their primary work location or may request to work remotely during their assigned hours. The District will take reasonable steps to facilitate the approved remote work. The District retains the right to direct bargaining unit members to perform their
regular assignments at their assigned site. The District will provide a minimum of 48 hours’ notice before requiring employees to return to sites, unless mutually agreed upon by immediate supervisor and employee.

J. Essential Worker Compensation

The District shall provide a one-time payment of five hundred dollars ($500) to all bargaining unit members for continued essential services provided to maintain the continuity of District operations during the COVID pandemic.

This payment shall be paid to any CSEA unit member who was actively employed as of March 1, 2020 and continues to be actively employed with the district upon ratification and board approval of this agreement.

K. Compliance with Further Governmental Orders:

In addition to the specific provisions above, the District shall follow the applicable CDPH Industry Guidance(s) as follows:

- For all sites and all classifications, the CDPH guidance for Schools and School-Based Programs.
- For all classifications that provide child care, the CDPH Guidance for Child Care Programs and Providers.
- For all classifications that work in office workspaces, the CDPH Guidance for Office Workspaces.
- For all classifications whose work includes the preparation and/or serving of food, the CDPH Guidance for Restaurants Providing Takeout, Drive-Through, and Delivery and for Restaurants, Bars, and Wineries, as applicable (depending on whether meals are served on school premises).

The District shall follow the applicable California Department of Education (CDE) guidebook for the safe reopening of schools.

The parties recognize that governmental standards and guidance about workplace safety and health with respect to the COVID-19 pandemic continues to evolve. The District agrees to adhere to any COVID-19-specific safety standards, orders, regulation, or guidance that may be issued after the guidelines referenced above and that apply to any of the types of work or working environments found in the District’s operations as such guidelines may be issued by the Centers for Disease Control and
Prevention (CDC), California Department of Public Health (CDPH), California Department of Education (CDE), the California Department of Industrial Relations Division of Occupational Safety and Health (Cal/OSHA), or the county Health Department, and will also adhere to any mandatory safety and health orders or regulations as they may be issued by any competent governmental body with appropriate jurisdiction.

In case of conflict between different governmental guidelines, the District will adhere to the guidelines that are the most protective of the health and safety of students and staff while at District facilities. The District will notify CSEA if it believes that any such changes in standards, orders, regulation, or guidance requires changes in working conditions beyond those specified in this MOU, and upon the request of either party, the parties will meet as soon as possible to negotiate the decision or effects, whichever is applicable under EERA, of those changes.

L. Grievance Procedure:

Any alleged violation, misinterpretation, or misapplication of the terms of this agreement shall be subject to the grievance and arbitration provisions of the CBA, if they exist, except modified as follows, and the following shall apply if the CBA does not provide for arbitration of grievances:

The definition of a grievant: Only CSEA can be the grievant, not an employee.

The definition of a grievance: A "grievance" is defined as any difference or disagreement arising with respect to the interpretation of this MOU or the performance of any obligation hereunder and need not allege that CSEA is adversely affected by the difference or disagreement.

CSEA will first attempt to resolve the grievance through an informal grievance resolution meeting between CSEA and the immediate supervisor. The immediate supervisor shall have five (5) working days to provide a resolution.

If the grievance is not resolved at the informal grievance resolution meeting, CSEA may move to immediately file a formal written grievance to the Assistant Superintendent, School and Systems Improvement within five (5) working days. A written decision by the District shall be rendered within five (5) working days.

If the grievance is not resolved at the formal grievance resolution meeting, CSEA may move to immediately file a formal written grievance to the Superintendent within
five (5) working days. A written decision by the District shall be rendered within five (5) working days.

If the written grievance is not satisfactorily resolved, CSEA may immediately submit a request for arbitration to the Superintendent within five (5) working days).

CSEA and the District agree that any alleged violation, misinterpretation, or misapplication of the terms of this agreement is time sensitive and therefore shall be resolved in expedited arbitration before an arbitrator mutually agreed upon by CSEA and the District. The parties will split the arbitrator's fees and expenses.

Arbitration shall be scheduled within twenty (20) working days once the request for arbitration has been submitted, unless a different timeline is mutually agreed upon by CSEA and the District or in consideration of the arbitrator's ability.

For urgent issues involving safety, either party may request the Arbitrator to issue a decision within one week of the arbitration hearing or on such other expedited timeline as the Arbitrator can accommodate. The Arbitrator shall have authority to control the presentation of evidence and make any other procedural rulings to expedite the hearing and the decision.

The Arbitrator's decision on any grievance filed on an alleged violation, misinterpretation, or misapplication of the terms of this agreement shall be final and binding upon CSEA and the District.

M. Duration of Agreement:

This MOU is a temporary agreement to address the extraordinary circumstances created by the COVID-19 pandemic. It does not create any precedents nor establish the status quo for future bargaining purposes. This MOU shall remain in effect until either the end of the day on June 30, 2021, or the lifting of the statewide State of Emergency declared on March 4, 2020 in response to the COVID-19 outbreak, whichever comes first.

1. Modifications to Duties and Shifts:

   The District shall maintain specific plans on how to follow CDPH and other health guidelines with current staffing levels or added positions.

   The District and CSEA acknowledge that California Education Code §45101(a) requires that all classified positions have set duties. However, due to the current unforeseen and unprecedented nature for the current conditions, CSEA and the District recognize that some CSEA bargaining unit positions may be asked to perform duties not currently contained within their current job description.

   o The District and CSEA agree this is a temporary solution to a current need and shall not be considered a waiver of CSEA’s rights to negotiate the permanent transfer of duties or job description modifications as required by law. This also shall not be considered precedent setting for either party.

   o The parties agree that current duties of bargaining unit positions shall not be transferred out of the bargaining unit to management employees, confidential employees, or certificated employees.

Without fear of reprisal, should an employee believe that the assignment of additional work or modified work by their supervisor is unreasonably demanding, or sets unrealistic expectations, the unit member may meet with their supervisor for the purpose of discussing and addressing the concerns.

Appropriate training for adjustments and modifications will be provided during the employees’ regular work hours. Employees will be compensated at their regular rate of pay.

Meeting: Jan 20, 2021 - RSD Regular Board Meeting
Category: 9. Consent
Subject: 9.6 MOU Between Ventura County Office of Education and Rio School District for Mental Health Services Grant
Access: Public
Type: Action (Consent)
Fiscal Impact: Yes
Dollar Amount: 82,980.00
Budgeted: Yes
Budget Source: Grant funds
Recommended Action: Staff recommends board approval of mental health services grant

Public Content

Speaker: Oscar Hernandez

Rationale:

The board previously approved an MOU with The Ventura County Office of Education to receive funds through a grant to Ventura County School Districts to help improve mental health awareness and outreach. In the spring of 2019, the pupil services department applied for and received the grant which is equal to $52,190 every year for three years. VCOE has recently received additional funds from the state for year 2 of the grant to support the objectives of the grant. VCOE has determined to best use these funds by distributing them to the districts included in the grant. For this fiscal year, the Rio School District will see an increase of $30,790 for a total of $82,980 that the district will receive. An updated MOU that reflects the increase in funds that the district shall receive is being presented to the board for approval.

Included in the grant are the following activities to support the families in the Rio School District: early identification, access, and linkage to mental health services of vulnerable and high-risk mental health populations, provide education and training for students and school personnel (teachers, counselors, specialists, administrators, and classified support staff) to increase mental health awareness and to reduce stigma and discrimination for those with mental illness or seeking mental health services, provide early intervention services through direct service of timely access to linkage of services, provide multi-generational family engagement and trainings that focus around mental health awareness and reducing stigma and discrimination for those with mental illness or seeking mental health services. Grant will be monitored through quarterly data collection, progress monitoring, and reporting.

MEMORANDUM OF UNDERSTANDING BETWEEN VENTURA COUNTY OFFICE OF EDUCATION AND RIO SCHOOL DISTRICT

This Memorandum of Understanding (Agreement) is made and entered into by and between Ventura County Office of Education (hereinafter referred to as VCOE) and Rio School District (hereinafter referred to as District)

PROJECT TITLE: Incorporating Multi-Tiered System of Support (MTSS) for Social-Emotional Learning with Mental Health Services in Schools

Agreement term: This contract will be in effect from July 1, 2019 to June 30, 2022, subject to all the terms and conditions set forth herein.

VCOE agrees to provide District training, coaching, and the coordination of integrated services between District, Ventura County Behavioral Health, and community-based agencies. VCOE will provide District ongoing technical assistance for project implementation. This shall include collaborative meetings, instruction on coordinated use of integrated student information system, evaluation and data collection, data analysis, and quarterly program monitoring.

District agrees to fund personnel to perform the duties of a District Mental Health Services Project Coordinator(s) for the implementation of the mental health services project at their school(s) as part of a Ventura County Office of Education (VCOE) Mental Health Services Partnership.

The District Mental Health Services Project Coordinator, or a designated alternate, will attend all quarterly Partnership meetings and will disseminate provided information to all participating District staff. In the event of a missed meeting, the Mental Health Services Project Coordinator will contact the VCOE Mental Health Services Coordinator to schedule time to discuss project progress and to coordinate participation in an alternative professional learning opportunity.

The District Mental Health Services Project Coordinator will ensure the District fulfills the following activities:

Activity 1. Perform early identification, access, and linkage to mental health services of vulnerable and high-risk mental health populations. District has identified students designated as Latino, African American, Homeless, Foster Youth, LGBTQ, Transitional-aged youth (TAY), Low socio-economic status, Chronically Absent and Expelled Youth as their vulnerable and high-risk population. Target location for project services will be Rio del Valle, Rio Vista, Rio Plaza, Rio Rosales and Rio Lindo in grades 3rd-8th. Early identification will be done through District Pulse, staff training, teacher referrals, parent referrals and any screening available through the adopted social emotional curriculum. Staff will be able to distinguish risk factors between students with mental health needs and those requiring more social-emotional adaptive learning behaviors. Students identified “at-risk” and/or displaying social emotional risk factors and/or mental health needs will be referred to the school counselor for further screening and linkage to mental health services or direct social-emotional intervention based on needs. Access and linkage of services will be done through dissemination of
mental health referral resources and direct one-to-one calls to coordinate mental health services. Follow-up on referrals will be done by referring staff to confirm linkage to services.

**Activity 2.** Provide education and training for students and school personnel (teachers, counselors, specialists, administrators, and classified support staff) to increase mental health awareness and to reduce stigma and discrimination for those with mental illness or seeking mental health services. District Mental Health Services Project Coordinator will identify, and the District agrees to train in the areas of mental health resources and referral process, social-emotional curriculum, suicide awareness and prevention, trauma-informed practices, mental health awareness training. Evaluations will be completed and submitted to VCOE.

**Activity 3.** Provide early intervention services through direct service or timely access to linkage of services. District has selected targeted prevention and early intervention services to include group and individual counseling and SEL curriculum.

**Activity 4.** Provide multi-generational family engagement and trainings that focus around mental health awareness and reducing stigma and discrimination for those with mental illness or seeking mental health services. All District multi-generational mental health trainings must address access and linkage to mental health services and information on how to recognize the early signs of potentially severe and disabling mental illness, including suicide. District will provide at least two (2) educational outreach activities to parents/families on mental illness and suicide prevention.

**Activity 5.** Participate in quarterly data collection and progress monitoring and reporting. The District Mental Health Services Project Coordinator will identify and train participating staff in the collection and entry of select data. The District Mental Health Services Project Coordinator will submit selected data to VCOE Mental Health Services Coordinator and participate in progress monitoring. VCOE Mental Health Service Coordinator will consult with District Coordinator to identify tracking mechanism for data collection and reporting on progress towards completion of activities. Exhibit 1. Logic Model will serve as a guide for implementation and data collection.

**Submission of data is due:**
- January 30th
- April 30th
- June 10th

**The following data to be collected and submitted includes:**
- Number of staff trained
- Number of students provided curriculum
- Number of parents trained
- Number of students screened
- Number of students referred to school services
- Number of students/families referred to community services
- Number of students/families linked to services
- School attendance rates
- Suspension and expulsion rates
- Number of discipline/diversion referrals
- Pre and Post course evaluations, as applicable

Meeting: Jan 20, 2021 - RSD Regular Board Meeting
Category: 9. Consent
Subject: 9.7 Awarding the bid for the 10Gb internet connection for the 9 school sites
Access: Public
Type: Action (Consent)
Preferred Date: Jan 20, 2021
Absolute Date: Feb 17, 2021
Fiscal Impact: Yes
Dollar Amount: 56,550.00
Budgeted: Yes
Budget Source: eRate
Recommended Action: Staff recommends awarding the 10Gb internet connection bid to VCEdNet for 2021-2024

Public Content

Speaker: Jarkko Mylari

Rationale:

The District internet and fiber services fall under the federal eRate Program. The District benefits from the program by receiving significant discounts (80%) on Internet connectivity and related services. For the past four years, the District has had a contract with VCEdNet (the Internet service provider branch of the Ventura County Superintendent of Schools Office).

In light of the District’s increased bandwidth need due to the growing number of devices on the network and increased online learning (e.g. COVID-19 closures and the anticipated hybrid model) the District requested vendor proposals through the eRate process for 10 Gigabits of bandwidth with a three and five year contracts. In accordance with the evaluation procedures stipulated by the eRate process, all bids were evaluated by a matrix incorporating price as the prevailing factor, with experience with the K12 environment, experience working with Rio and surrounding districts, and other additional costs and taxes as related factors.

Based on this evaluation matrix, staff is recommending the Board authorize a contract for the next three years to VCEdNet. The contract provides the District with the option to extend the contract after the first 3 years with the same pricing.

Category: 9. Consent
Subject: 9.8 Awarding the bid for the 5Gb internet connection for the District Office
Access: Public
Type: Action (Consent)
Preferred Date: Jan 20, 2021
Absolute Date: Feb 17, 2021
Fiscal Impact: Yes
Dollar Amount: 2,300.00
Budgeted: Yes
Budget Source: eRate
Recommended Action: Staff recommends awarding the 5Gb internet connection bid to Spectrum for 2021-2024

Public Content
Speaker: Jarkko Myllari, Director of Technology

Rationale:

The District internet and fiber services fall under the federal eRate Program. The District benefits from the program by receiving significant discounts (80%) on Internet connectivity and related services. For the past year, the District has had a contract for 2Gb with Spectrum Charter.

In light of the District’s added bandwidth needs due to the increased use of videoconferencing and other data intensive work the District requested vendor proposals through the eRate process for 5 Gigabits of bandwidth with three and five year contract periods. In accordance with the evaluation procedures stipulated by the eRate process, all bids were evaluated by a matrix incorporating price as the prevailing factor, with experience with the K12 environment, experience working with Rio and surrounding districts, and other additional costs and taxes as related factors.

Based on this evaluation matrix, staff is recommending the Board authorize a contract for the next three years to Spectrum.

EXECUTIVE SUMMARY
Spectrum Enterprise ("Spectrum"), a commercial brand of Charter Communications, is pleased to provide this response illustrating our ability to provide Rio Elementary School District with broadband services. We take pride in being an innovative resource for businesses, schools and communities. Our reliable and economical service is a natural fit with your mission.

Bring Advanced and Affordable Technology to Your Schools and Libraries
Advanced communications services and computing technologies in the classroom have become vital to education. Unfortunately, today's challenging economic environment has put education and technology budgets under tremendous pressure. It is a challenge for schools to get access to technologies that help drive greater student achievements.

The Federal Government created the E-rate Program to help with the need for communications services and budgeting problems. Funded by the Universal Service Administrative Company (USAC), this program offers 20-90 percent off standard retail rates on eligible communications services to eligible schools, libraries, and their districts. Federally funded E-rate discounts have made today's technology more affordable.

Spectrum's Solution
Since 1998, Spectrum has worked with thousands of E-rate accounts. We understand the E-rate program and how best to benefit from it. Our experience in this area will provide E-rate specialists who understand:

- rules and regulations to participate in the program
- billing and standard discounts

Technology and education have converged, and your communications needs are growing rapidly.

Get Powerful Services with the Financial Benefits of E-rate
Research shows that technology use is a top-five indicator of better discipline, better attendance, and increases in college enrollment. Educational organizations are leveraging E-rate by partnering with Spectrum to reduce cost and implement technology for greater student achievement. We have invested the time and effort to ensure our sales and support teams have the expertise to help you get the best services through the E-rate program.

Unsurpassed Expertise and Customer Support
A network of specially trained, industry experts supports Spectrum. We have around-the-clock, U.S.-based business support centers and knowledgeable, locally based technicians who are specifically trained to help with your unique needs. Our dedicated work ethic, shared knowledge, and proprietary systems allow us to ensure that the solutions we are quoting Rio Elementary School District will match your specific and discrete needs.

When you collaborate with Spectrum for communications services, we assign a dedicated account team who will support your services:

- **Account Executive**: a dedicated, local market expert who is available for your consultation needs
- **Sales Engineering**: trained technical experts who customize designs based on your needs.
E-rate Specialists: experienced with E-rate rules and regulations and are billing and standard discounts experts
Project Management: customer focused experts who manage your build and communicate with you every step of the way
Account Manager: your point of contact; responsible for providing you with accurate billing and consultation on future growth needs
Network Operations Center: Spectrum staff that continuously monitors the network

E-rate clients have direct access to our Government Subsidized Programs (GSP) department who specialize in E-rate, RHC, and CTF programs. To support E-rate program participation, Spectrum Enterprise:

- Provides to client an FCC Form 471 Funding Recommendation Letter after the FCC Form 470 and awarded Service Agreement review.
- Reviews FCC Form 471 for possible errors and omissions and distributes to the client accompanying RAL Modification recommendation necessary to maximize eligible funding.
- Monitors SPI invoice submissions and SPI discount application (FCC Form 474).
- Will be available to address program questions, or concerns via email.

Renewal Plan
As your incumbent provider, we have developed this proposal with the benefit of our experience, and have based it on our knowledgeable understanding of your requirements. Our combination of technology services and proposed cost, based on actual experience with Rio Elementary School District, provides an incredible value. By choosing once again to collaborate with Spectrum, you will be choosing a vendor with the proven infrastructure and experienced team currently in place to support the program. It is Spectrum’s objective to continue our partnership with you while continuing to focus on responsiveness, transparency, and continuity of services. It is with that focus we have developed our proposal response to the RFP.

Special Construction
Spectrum Enterprise supports E-rate applicants who seek special construction funding for the upfront, non-recurring/install charges for the deployment of new or upgraded facilities. Spectrum Enterprise has over 20 years of E-rate experience, and one of the largest Fiber providers in the nation who designs, procures and implements large complex infrastructure projects. Applicants seeking additional E-rate discounts to match state funding for special construction must submit information with their FCC Form 471 filing that USAC will use to determine eligibility [https://www.usac.org/e-rate/applicant-process/before-you-begin/fiber-summary-overview/additional-discount-to-match-state-tribal-funding-for-special-construction/](https://www.usac.org/e-rate/applicant-process/before-you-begin/fiber-summary-overview/additional-discount-to-match-state-tribal-funding-for-special-construction/).
SPECTRUM SERVICE PROPOSAL

These prices will remain in effect throughout the Initial Order Term, subject to the following contingencies:

- final engineering, design and site visits; and
- acceptance of and entering into the Spectrum Enterprise Service Agreement (as may be negotiated by the parties as stated in the Legal Disclaimer section above), which shall govern the contractual relationship between the parties and the provision of the services under such contract.

Public Content
Speaker:
Wael Saleh, Assistant Superintendent, Business Services

Rationale:
The change order from Reed Mechanical Systems includes the removal, replacement, wiring and functional test with power for 29 actuators that have failed at Rio Vista Middle School. The motor for these actuators powers a Fire/Smoke Damper open and allows the air to pass thru the ductwork into the building. In the event of a fire the fire alarm system turns the power off to the damper motor and it springs closed which prevents smoke or fire from traveling beyond it's location. The failed motors resulted in no airflow to the classrooms.

Recommendation to Approve CO #3 to Reed Mechanical

Dear Dr. Puglisi,

Please accept this letter as recommendation to request approval for CO#3 to Reed Mechanical Systems, Inc. for Added & Deleted scope of work items at the above Project, and as amendment to their contract. Scope change to the project is as follows;

PCO No.3
General Contractor: Reed Mechanical Systems
Description: Replace 29 Bellimo Wall Type Fire Damper Actuator Motors in Building C 2 Story at Rio Vista
Reason Cost/Credit: It was discovered during the COVID 19 HVAC Service and Filter Upgrade work at Rio Vista Middle School at Building C 2 Story that the in-wall fire smoke damper actuator motors were all non-operable. The fire damper actuator motor failure stopped any air from entering classrooms in building C which created an unhealthy and hazardous condition. Needed to be replaced to get air flow back in rooms for proper air flow.

Subject  9.13 Approval of Change Order #2 from Reed Mechanical for the COVID 19 upgrade and equipment repairs at Rio Del Valle, Rio Del Norte, Rio Real, and Rio Rosales, Project No. 20-111.
Access  Public
Type  Action (Consent)
Fiscal Impact  Yes
Dollar Amount  21,947.00
Budgeted  Yes
Budget Source  COVID 19 funds

Recommended Action  It is recommended that the Board approve the change order from Reed for the necessary repairs and upgrades to equipment due to COVID 19 at Rio Del Valle, Rio Del Norte, Rio Real, and Rio Rosales.

Public Content

Speaker:
Wael Saleh, Assistant Superintendent, Business Services

Rationale:
This change order for $21,947.00 is for improvements to equipment found during the process of upgrading equipment for COVID 19 preparation. These improvements were spread among several school sites - Rio Del Valle, Rio Del Norte, Rio Real, Rio Rosales for things such as new thermostat wiring, additional repeaters, replacement of switches, and various additional items as listed on the attached Change Order.

All CUPCCAA projects were the result of the COVID 19 Pandemic that needed to be dealt with on an expedited basis. The Rio School District initiated an emergency plan to immediately upgrade all school sites to become compliant with CDC and State of California Health Department recommendations along with other health & safety measures put forth by the County of Ventura Office of Education and the State Superintendent of Schools and California Department of Education.

The quickest way the Rio School District could get this emergency work completed and comply with public contract code was to complete this emergency COVID 19 work by utilizing the pre-approved Rio CUPCCAA contractors and execute the Informal bid process to get all work accomplished by the time school was re-opened. As we moved forward with all COVID 19 Emergency Upgrades at each school site, additional information and recommended facility upgrades and improvements were coming up for the prevention of the spread of COVID 19 and how to best control the Virus in a School Classroom environment.

This constant flow of new COVID 19 information drove change orders and added emergency improvements to occur while completing the base bid work for each of these COVID 19 Emergency Improvement projects.

Each of the bids received for the COVID 19 Emergency Improvements were below the bid threshold. The change orders issued and required drove up each of the contracts to go over the $200K Limit but the added changes stayed roughly within the 10% of total contract cost. This change order was a bit higher than the 10% allowance.
